The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

Assessing Contexts of Learning Susanne Kuger, Eckhard Klieme, Nina Jude, David Kaplan, 2016-12-05 This volume brings together educational effectiveness research and international large scale assessments demonstrating how the two fields can be applied to inspire and improve each other and providing readers direct links to instruments that cover a broad range of topics and have been shown to work in more than 70 countries The book's initial chapters introduce and summarize recent discussions and developments in the conceptualization implementation and evaluation of international large scale context assessments and provide an outlook on possible future developments Subsequently three thematic sections Student Background Outcomes of Education Beyond Achievement and Learning in Schools each present a series of chapters that provide the conceptual background for a wide range of important topics in education research policy and practice Each chapter defines a conceptual framework that relates recent findings in the educational effectiveness research literature to current issues in education policy and practice These frameworks were used to develop interesting and relevant indicators that may be used for meaningful reporting from international assessments other cross cultural research or national studies Using the example of one particular survey the Programme for International Student Assessment PISA 2015 this volume links all theoretical considerations to fully developed questionnaire material that was field tested and evaluated in questionnaires for students and their parents as well as teachers and principals in their schools The primary purposes of this book are to

inform readers about how education effectiveness research and international large scale assessments are already interacting to inform research and policymaking to identify areas where a closer collaboration of both fields or input from other areas could further improve this work to provide sound theoretical frameworks for future work in both fields and finally to relate these theoretical debates to currently available and evaluated material for future context assessments

**Maker Literacies and Maker Identities in the Digital Age** Cheryl A. McLean, Jennifer Rowsell, 2020-11-18 This book explores making in the school curriculum in a period in which the ability to create and respond to digital artifacts is key and focuses on makerspaces in educational settings Combining the arts with design to give a fuller picture of the engagement and wonder that unfolds with maker literacies the book moves across such settings and themes as Creativity and writing in classrooms Making and developing civic engagement Emotional experiences of making Race and gender in makerspace Game based play and coding in schools and draws its case studies from the Netherlands Finland Canada Australia the United Kingdom and the United States Giving as broad a perspective on makerspaces making and design as possible the book will help scholars expand their understandings and help educators appreciate the power and worth of making to inspire students It is useful for anyone hoping to apply design maker and makerspace approaches to their teaching and learning

*After the Education Wars* Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

**Demolition Agenda** Thomas O. McGarity, 2022-05-17 The first

comprehensive account of the Trump administration's efforts to destroy our government institutions by the man Ralph Nader says writes authoritatively and with revealing detail about important topics that few others cover Tom McGarity writes authoritatively and with revealing detail about important topics that few others cover Ralph Nader Koch Industries spent 3.1 million in the first three months of the Trump administration largely to ensure confirmation of Scott Pruitt as head of the EPA By July 2018 more than sixteen federal inquiries were pending into Pruitt's mismanagement and corruption But Pruitt was just the first in a long line of industry friendly incompetent and destructive agency heads put in place by the Trump administration in its effort to dismantle the federal government's protective edifice Remember Secretary of the Interior Ryan Zinke who before he faced eighteen separate federal inquiries and was fired made a deal with Halliburton to build a brewery on land that Zinke owned in Montana Or how about Transportation Secretary Elaine Chao who rescinded requirements that high hazard trains install special braking systems weakened standards for storing natural gas and lengthened the hours that truck drivers could be on the road without a break even as she failed for two years to divest her interest in a road materials manufacturer And then there were Rick Perry Betsy DeVos Sonny Perdue Andrew Puzder the list goes on In an original and compelling argument Thomas McGarity shows how adding populists to the Republican's traditional base of free market ideologues and establishment Republicans allowed Trump to come dangerously close to achieving his goal of demolishing the programs that Congress put in place over the course of many decades to protect consumers workers communities children and the environment Finally McGarity offers a blueprint for rebuilding the protective edifice and restoring the power of the American government to offer all Americans better lives

**Annual Index**, 1928      **Timing the Future Metropolis** Peter Ekman, 2024-11-15 Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to
