

My Personal Philosophy Of Education

As a student at Mercy College and an upcoming Teacher, what is important to me is fully gaining knowledge from my education that will prepare me to be the best possible teacher. Being a student can be very tough in many ways. Handling the work workload that is given to us, the number of essays we have to write, and the homework assignments we have to do can bring a lot of tension stress and painful headaches. One thing I learned from the college experience that is going to stick with me for life is that the workload can be very hard to handle, but after it's done and I gain knowledge, I will feel very blessed and very happy with the amount of work that I did. Honestly speaking, that is the best thing I have learned as a student. Doing all the work and gaining knowledge and using that in my everyday life is a privilege. Not all people get to go to school or get to go to college and learn subjects or gain knowledge from teachers or from some of the best professors that the school has to offer. Also, it's very important for us as students to build a connection with our professors and show them every student in the classroom wants to learn from them and wants to be as successful as they can. In my opinion, professors are some of the best people out there; if we really think about it, it is professors who are the reason each year young people like me and other college students from all over the world are graduating and going on to do the jobs that they love. Professors are the reason why people in the world are so successful and knowledgeable, and it honestly hurts me to say that they don't get enough recognition or not enough respect or all the love that they deserve. It is very important for professors to feel the connection with their students and treat them as daughters and sons that they want to see succeed. It is also very important for professors to make sure their students get the education that they need to be successful in life.

The Serendipity of Hope Simon Lee, Ian S. Markham, 2023-07-07 Institutions are very precious If any idea is going to persist into the future then it needs an institution to keep it going Each of us comes to understand often only gradually over the decades how some influences from our earlier life have affected us Some will have been inspiring Some will have given us direct models of how to behave or how not to behave Indeed it is often the case that the deeper an influence turns out to have been in the long run the less likely it is that we noticed it at the time it was happening For this reason it has become necessary to find the time to reflect on and express gratitude for the institutions that helped form who we are and the work that we do This collection of essays explores the impact of one institution on twenty five participants twenty five years after we worked together The Institution was Liverpool Hope University College and is now Liverpool Hope University By telling and reflecting on our stories we aim to encourage others to think about their own experiences and ultimately our earnest hope is that a greater awareness of this aspect of university life will help to transform our collective understanding of the nature of universities in particular and of communities institutions or societies in general But there was something special about belonging to a community called Hope

Family Conscience John D. Barbour, 2025-06-17 This memoir explores the role of conscience in four generations during a century of family history. It begins with the suicide of Barbour's maternal grandfather and the impact of this traumatic event. Later chapters describe his interactions with other grandparents, parents, two uncles, siblings, a former spouse, and two sons. *Family Conscience* depicts the values and patterns of self-assessment that members of this family share and also the ways their differing moral views have been influenced by interactions with one another. Barbour interprets how he and family members have understood work and vocation, religious commitments, political and economic values, choices about marriage and raising children, conflicts within the family, and other situations and issues. This thematic family memoir blends the genres of biography, oral interview, autobiography, essay, and cultural history, as Barbour depicts how conscience was transmitted and transformed through the generations.
