My Ideal Job

As we gradually near the end of school, each student must decide what profession or career path they would like to attempt. Ensuring a purpose helps students to determine which subjects to select for our upcoming IGCSE and IAL examinations. During this time period, everyone find or discover their dream jobs.

An ideal job is a preferred career path for a person. It is something which a person feels interested towards. It is something where a person will work on or with something which they adore.

To find out one's ideal job, one must first understand what draws them toward it. Personally, I feel myself to be drawn towards chemistry and biology. The science found in living and breathing creatures amaze me. While learning these two subjects, I always see myself to be in awe of how chemistry shows us all the structures and composition of all kinds of substances found in the living organisms and their molecular interactions, which we are taught in biology.

Another thing that draws my attention is "All Things Makeup". I have always been drawn towards beauty and fashion from a young age, though it took me a while to apprehend this. The mechanism of these cosmetic products has only started to kick in recently.

I began thinking about my future when we were asked to select which courses to study for our IGCSE. It took me a while to finally determine that I would like to work in the beauty department of the world. I always wondered what they were using to make these products that a large number of people around the world apply daily. Afterwards, it did not take me very long to figure out the connection between the three things I admire the most.

At the beginning, I researched a lot about what this job would entail. I later discovered that the industry is very tight-knit and cosmetic science courses are pretty hard to attain, but I have made up my mind, and am ready to take n any challenges that comes my way.

An ideal job may sound very promising, but like all things, it will not be perfect.

The only thing we can do is start working towards what it is that we really want, and also remember that if things do not work out, there are more options left to decide from.

Innovation's Missing Link Al Judge, 2007 Praise for Innovation's Missing Link: It's a pleasure for me to recommend this book to you. It delivers on its promise. Its message is clear. Its point of view is always poignant. The future of innovation will be greatly improved if leaders across the country read and adopt the mind set of this great book. Cofounder of the Chicago Innovation Awards. An insightful and actionable guidebook on how to effect innovative change in the minds of the leaders and associates within an organization. I especially enjoyed the emphasis on the people dimension, which is lacking in other similar texts. An easy read. David Orwick, Director, Product Strategy, H R Block Tax Business Services. Overview: Innovation's Missing Link is not just another book about innovation or about some secret to successful innovation. It is a comprehensive and holistic discussion about the universal process of innovation as well as many insights into human nature and management skills. It goes where no book on innovation has gone before. Its style is narrative, and numerous true stories are used to add entertainment value, drive home key points, and add to the experience of the reader. Rather than using endless statistics to create credibility, the author draws on 37 years of practical experience and common sense. Most people can recognize the ring of truth and don't require a lot of supporting data if the premise is reasonably stated. Above all else, this book respects the time constraints that most of us find ourselves battling every day. This is a reader-friendly book in that it places the burden of communication on the writer.
