

Short Essay

My Favorite Animal

My favorite animal is the tiger. Tigers are incredible animals known for their stunning orange fur and striking black stripes. They live in various habitats, including forests, grasslands, and swamps in Asia, where they can roam freely. As carnivores, tigers primarily eat meat, hunting animals like deer and buffalo.

One of the most impressive traits of tigers is their strength. They are powerful and can leap great distances when chasing prey. Unlike many other animals, tigers are solitary creatures, preferring to live alone. They are also fantastic swimmers and enjoy splashing around in the water.

Tigers communicate using different sounds, including loud roars and soft chuffs. Unfortunately, tigers are endangered, meaning they face threats from habitat loss and poaching. This is why it is essential to protect them and their homes. Each tiger's unique pattern of stripes makes them even more special.

In conclusion, tigers are my favorite animals because of their beauty, strength, and uniqueness. I hope we can all help them thrive in the wild!

Never Trust a Tiger Char Valdez, 2019-10-18 This is a fictionalized story about a circus and my great aunt Marie who was a lion tamer during the eighteenth century and early nineteenth century She worked for the Al G Barnes Circus and later Barnum and Bailey She traveled across the United States and Europe performing with the big cats as well as with dancing bears giant dogs and other animals She was known as the best dressed woman in the circus and was often billed as Princess Florines She was injured countless times but returned to the work she loved with animals despite her injuries She was in many creative acts and in most she played a little girl Being of small stature and very beautiful she played fairy tale characters in many of her acts

One With the Tiger Steven Church, 2016-10-17 On September 21 2012 twenty five year old David Villalobos purchased a pass for the Bronx Zoo and a ticket for a ride on the Bengali Express Monorail Biding his time he waited until the monorail was just near the enclosure of a four hundred pound Siberian tiger named Bashuta before leaping into it They spent ten long minutes together in the tiger's cage before nature took its course with one exception The tiger did not kill him David's only response It's a spiritual thing I wanted to be at one with the tiger One with The Tiger On Savagery and Intimacy

uses David's story and other moments of violent encounters between humans and predators to explore the line between human and animal. Exposing what the author defines as the shared liminal space between peace and violence, Church posits that the animal is always encroaching on the civilization and those seeking its wildness are in fact searching for an ecstatic moment that can define what it means to be human. Using examples from Timothy Treadwell to Mike Tyson or such television icons as Grizzly Adams and The Incredible Hulk, Church shows how this ecstasy can seep its way into the less natural world of popular culture, proving time and again that each of us can be our own worst predator. **Blue Tiger** Harry R. Is That a Fact? Tony Stead, 2023-10-11 The book you are about to read is destined to be the first middle and maybe even the last word on nonfiction writing for young children. It is certainly a text that you will return to over and over again as you do with a beloved cookbook from the Foreword by Tomie dePaola. Over eighty-five percent of the reading and writing we do as adults is nonfiction, yet most of the reading and writing in K-3 classrooms is fiction or personal narrative. In *Is That a Fact? Teaching Nonfiction Writing K-3*, Tony Stead shows you how to open the door to the rich world of nonfiction writing that goes beyond what I did: narratives and animal reports. And he convincingly demonstrates the importance of introducing nonfiction writing in the primary grades. Nonfiction inspires enthusiasm in young children because they can choose topics that are of interest to them personally. *Is That a Fact?* explores a variety of authentic purposes for writing nonfiction, such as describing, explaining, instructing, persuading, retelling, and exploring relationships with others. You will learn how to introduce each purpose using a variety of forms, including letters, reports, poetry, captions, directions, and interviews. Part One provides a complete overview of teaching nonfiction writing in the primary grades and includes practical ways for organizing nonfiction resources within the classroom, how to assist children in collecting information for research, ideas for helping children keep their sense of voice when writing nonfiction, a chapter on spelling with examples of how to guide students at each stage of spelling development, strategies for assessment and evaluation that guide teaching and learning engagements. Part Two provides five different explorations that were implemented in actual K-3 classrooms. Each focuses on a specific purpose for writing nonfiction and features examples of whole class, small group, and independent instructional engagements, a comprehensive assessment rubric that will help teachers tailor instruction to the needs of all learners, an extensive resource section that includes lists of books in the exploration grouped by readability levels, answers to the most commonly asked questions about teaching nonfiction writing. The appendixes include a self-assessment questionnaire, reproducible pages for exploring specific writing forms, and letters to parents. Children need to be introduced to the different purposes of nonfiction writing. They need to know how to plan, compose, revise, and publish nonfiction beyond narrative. *Is That a Fact?* guides you in achieving these goals with your students. *Teeny Houdini #3: The Giant Panda Plan* Katrina Moore, 2022-06-14 Little Bessie Lee is on a mission to save the pandas.
