## Myths and Legends

Myths and legends are stories that are passed down from generation to generation. They are often used to explain natural events, human actions, and the world around us. Myths and legends are often used to teach children about the world and the values of their culture.

## Creatures

Myths and legends have fantastical creatures. These creatures often help the hero or stop the hero from achieving his or her goal. Usually these creatures have special powers.

## Setting

Myths and legends are often set in very interesting places. As the quest for the hero or going into a difficult area, the places they travel to will often be something like high mountains, dark woods or dangerous caves.

## Quest

A quest in a myth or legend is the journey the hero has to take to find something. During the quest, the hero often faces several challenges before completing the final mission.

## Myths

A myth is based vaguely on a real event but is more than likely a story that has been created to teach people about something meaningful. At the time, people didn't understand the world, so myths were often used to explain things such as earthquakes, hurricanes, the sun, the moon and stars, and death.

## Legends

Legends are stories that have been passed down from person to person over a long period of time. They are often based on a true event or a real creature. The story, however, is changed over time. Legends often have a main character.

## Heroes

Heroes are characters in myths and legends who are often powerful. They sometimes have special powers. For example, the hero Hercules has super strength.
