eagerly waiting for their favorite cookie to be eaten I a novice baker anticipated that the task of developing a novel cookie recipe would be quite challenging Even though I m not a professional baker coming up with ideas was easy for me because I love cookies Several immediately came to mind some of which had a fruit based flavor while others had a completely different shape and were cooked in completely different ways Divergent brainstorming for a cookie recipe even though the process of coming up with ideas led to several inventive and novel recipes I had no idea how to bake a cookie I set out to research fundamental sugar cookie concepts to later modify to begin baking and experimenting with my cookies I figured that after I learned how to bake a basic sugar cookie I could easily modify the recipe to make tasty and unique cookies This was not the case at all My first ideas for unique cookie concepts were based on a fruit based flavor profile or a completely new use for a cookie Due to my extensive engineering training I initially favored a focus on utility in my cookie design A microwaveable cookie a cookie in the shape of an ice cream cone and a cookie spoon were among the designs of marketable product based cookies I have spent the past few summers developing microwave susceptors for food products like Nestle Hot Pockets at a microwave packaging company I wanted to make a microwave based cookie that didn t need an oven because of my technical background in this area Sadly the first experiments with this idea resulted in an unpalatable cookie I went back to my original fruit based ideas after spotting a pattern in the cookie quality that correlated with a change in the cookie method
