La Dictature Du Carbone Documents:

La dictature du carbone Frédéric Denhez, 2011-09-28 A l'exception de quelques climato sceptiques la cause est entendue nous occidentaux en particulier sommes responsables de la formidable accélération du changement climatique enregistré depuis un demi siècle. Nous notre société de consommation productiviste et les missions massives de CO2 relâchées dans l'atmosphère. Pour contrer ce phénomène un nouvel indicateur a été créé et mis toutes les sauces le carbone. On calcule les empreintes carbone de tous nos faits gestes et entreprises on veut instaurer une taxe carbone on spéculé sur les bourses au carbone. Le carbone serait donc notre nouvelle boussole l'aune de laquelle nous pourrions mesurer tous nos actes afin d'inverser le cours des choses. Dans cet essai enlev Frédéric Denhez révèle la gabegie que recouvre cette dictature du carbone. Car finalement c'est l'arbre qui cache la forêt ou plutôt l'indicateur qui permet au système de s'acheter fort cher une bonne conscience écologique pour continuer de plus belle. Il montre de manière claire et implacable quelles sont les autres critiques qu'il faut prendre en compte pour redonner notre société un avenir plus radieux et quelles solutions plus contraignantes pour le système doivent être mises en place au plus tôt.

Industry 4.0 Jean-Claude André, 2019-07-10 Digital technology opens up extraordinary fields for applications that will deeply change the nature of jobs and trade the very concept of work and the expectations of user producers. The masters of algorithms have disrupted production and services and this trend will continue for as long as electric energy and the elements of Industry 4.0 are in continued development. Beyond data control a power struggle is working its way through the links in the value chain: intermediation, control of resources and command over human and physical networks as well as partnerships, creativity and the political system. Industry 4.0 Paradoxes and Conflicts examines the need for a serious and technological review as well as for research and training regarding citizenship and politics. This is a new situation in terms of relationships of competence and authority which must be the subject of scientific as well as political reflections for the whole social body which needs to be educated about choices. Throughout the book the author poses the following question instead of submitting to choices: would it not be better to exercise foresight?

Chaud devant Jean-François Viot, 2020-06-26 Une coll. que un ami ou un parent nous avons tous une relation qui refuse de penser que le réchauffement climatique a lieu qu'il a une cause humaine ou que nous pouvons réagir. Alors qu'un consensus scientifique solide existe certains multiplient les arguments pour nous convaincre que nous ne devons pas nous en faire ou que nous ne sommes pas responsables. Cet ouvrage va à la rencontre de ces arguments. Au départ d'une discussion entre une nièce militante et une tante physicienne Jean-François Viot explore l'histoire et les fondements de la science climatique s'interroge l'action du GIEC et interroge les mécanismes du climato scepticisme. Son investigation minutieuse découvre ainsi petit à petit les fils des thèses qui nient le réchauffement climatique. Il en ressort un formidable outil la porte du plus grand nombre pour débattre une question fondamentale du XXI^e siècle. Le réchauffement climatique savoir ou bobard. Avec une préface de Jean-Pascal van Ypersele climatologue et ancien président du GIEC.

Études et documents de politique scientifique Unesco, 1988 **National Union Catalog**, 1968 Includes entries for maps and atlases De la publicité à la communication responsable Yonnel Poivre-Le Lohé, 2014-04-11 Loin d'être une simple fonction support qui ne servirait qu'à faire connaître la communication des organisations est un maillon essentiel du système économique. Elle influence profondément l'activité même de ceux qui communiquent mais aussi les attentes de ceux qui sont exposés aux messages. Entre le greenwashing littéralement blanchiment écologique d'image qui remet en cause la conversion écologique de la société et une autorégulation inefficace la communication est devenue un monstre de teste et autocentre. Mais est-ce étonnant de la part d'un médiateur dont deux des actes fondateurs étaient une grève à briser et des cigarettes à faire brandir par les suffragettes comme des flambeaux de la liberté. En réaction aux pratiques les plus détestables de la communication manipulation est ainsi lentement en train d'émigrer la communication responsable. Ne se limitant pas à la bonne utilisation des arguments du développement durable elle consiste en une prise de conscience de ses impacts négatifs environnementaux sociaux et en un effort pour les limiter dans l'intérêt de tous. Pour faire adhérer à un message la meilleure solution n'est-elle pas de retrouver un imaginaire vrai de restaurer le dialogue avec toutes les parties prenantes et de développer la culture de la preuve. Des voies nouvelles doivent être ouvertes car notre système économique est perfectible. Or c'est dans l'entreprise que réside la création de valeurs que se joue la croissance et la prospérité pour la société condition toutefois de l'inscrire dans des logiques de long terme et en ne perdant jamais de vue que ce sont des femmes et des hommes qui par leur travail sont le moteur réel de toute création de richesse. Plaider pour que le retour de la croissance ne s'accompagne pas d'un retour de mauvaises habitudes et de fausses valeurs mais soit l'occasion de replacer l'homme au centre de l'entreprise et d'agir pour le long terme tel est l'objectif de cet essai mené par un collectif de chefs d'entreprise se terminant comme des praticiens humanistes.
