Julie A. Luft, M. Gail Jones

Mathematics Pseptember 2014 Mpumalanga:

Annual Report Mpumalanga (South Africa). Department of Education, 2014

Diseases at the Wildlife - Livestock Interface Joaquín Vicente, Kurt C. Vercauteren, Christian Gortázar, 2021-04-29 Shared diseases among wildlife livestock and humans often transboundary are relevant to public health and global economy as being highlighted currently relative to the global COVID19 pandemic Diseases at these interfaces also impact the conservation of biodiversity and must be considered when managing wildlife While wildlife and domestic livestock have coexisted in dynamic systems for thousands of years spillover disease risks are higher today than in the past due to global patterns of increasing close contact and interactions among wildlife livestock and humans in the context of complex diverse and numerous circumstances Multidisciplinary studies of animal interfaces especially those involving wildlife therefore must be brought to the forefront so that knowledge gaps can be realized and filled to inform managers and policy makers In the first part of the book authors illustrate and discuss ecological and epidemiological concepts related to the interfaces with a vision towards socio ecological system health In addition the history of past animal interfaces provides the necessary perspective to focus current questions better understand present situations and informs how we can best approach the future The second part discusses the myriad of similar and differing wildlife livestock interfaces found around the world from a regional point of view The third part focuses on how to assess the spatial and temporal overlap between livestock and wildlife and authors present new technical innovations about how inter transmissions between wild and domestic populations can be quantified An overview of main modeling approaches available to quantify multi host disease transmission at the wildlife livestock interface illustrated with specific case studies is also presented Finally the need for interdisciplinary approaches and a dedicated thematic field to approach the wildlife livestock interfaces and create opportunities to promote wildlife livestock coexistence is emphasized The concluding chapter presents perspectives and directions to better understanding disease dynamics at the wildlife livestock interface global change and implications for the future The changing distribution of interfaces ongoing human and environmental changes e g climate warming changes in animal production systems etc and their likely impacts and consequences for the interfaces and disease transmission processes are all discussed

Being a Teacher in Post-Apartheid South Africa Yusuf Sayed, Marcina Singh, 2025-05-01 In a compelling exploration of the challenges faced by newly qualified teachers NQTs in South Africa s evolving educational landscape this book provides an empirically grounded account of their experiences Drawing on extensive research it offers a poignant narrative that seeks to illuminate the nuanced journey these educators embark upon as they transition from teacher education spaces to the complex reality of classrooms in post Apartheid South Africa The book acts as a crucial platform for the voices of NQTs shedding light on the myriad enablers and disablers they encounter during this transformative period Timely and relevant it tackles pressing questions about the readiness of teacher education to prepare students for the demands of South African schools The book charts the transition

from teacher education to active teacher for NQTs The lessons distilled from this research present a clarion call for a re assessment of teacher education policies and practices This book arrives at a pivotal moment as South Africa reviews its teacher education policies With the quality of initial teacher education programmes under scrutiny the book s critiques findings and recommendations serve as indispensable tools for policymakers arguing for the need to reconceptualise South African teacher education policies As South Africa strives to avoid a cycle of developing new teachers only to lose them due to inadequate support this book seeks to support educators policymakers and all those invested in the future of South African education toward creating a more socially just education system recognising the highly unequal society in which teachers work

Future-Proofing Teacher Education Sarah Gravett,Nadine Petersen,2022-07-22 This book presents a variety of perspectives on teacher education for a fast changing world It deepens the discourse on teacher education and specifically considers teacher education in light of the technological advancements of the Fourth Industrial Revolution as well as education in times of uncertainty Drawing on examples from South Africa and showcasing international authors the book offers a nuanced evaluation of how teacher education might adapt for the future It explores the tension between the perennial in education and the unpredictability of the future and asks the question of how teacher education can contend with these tensions and how teachers can prepare for unexpected circumstances Chapters draw on the science of learning and foreground lessons learned from the abrupt move of teacher education online due to the COVID 19 pandemic The book invokes these themes to reimagine and strengthen teacher education for the future presenting reports on research case studies and theoretical stances Future Proofing Teacher Education explores what is relevant in teacher education in the 21st century and will be a key reading for researchers academics and post graduate students of teacher education technology in education and digital education

Handbook of Research on Science Teacher Education Julie A. Luft,M. Gail Jones,2022-04-26 This groundbreaking handbook offers a contemporary and thorough review of research relating directly to the preparation induction and career long professional learning of K 12 science teachers Through critical and concise chapters this volume provides essential insights into science teacher education that range from their learning as individuals to the programs that cultivate their knowledge and practices Each chapter is a current review of research that depicts the area and then points to empirically based conclusions or suggestions for science teacher educators or educational researchers Issues associated with equity are embedded within each chapter Drawing on the work of over one hundred contributors from across the globe this handbook has 35 chapters that cover established emergent diverse and pioneering areas of research including Research methods and methodologies in science teacher education including discussions of the purpose of science teacher education research and equitable perspectives Formal and informal teacher education programs that span from early childhood educators to the complexity of preparation to the role of informal settings such as museums Continuous professional learning of science teachers that supports building cultural responsiveness and teacher leadership
