Education Game Changers Karen E. Starr, 2014-12-08 *Education Game Changers* is written for an international readership. This book refers to all education levels and sectors and builds on research in educational leadership, education business, and organizational change. Karen E. Starr describes policy paradoxes challenging the sustainability of educational provision as we know it and the imperatives they present for educational leadership, business, and governance. This book critiques the paradoxical education policy context while exploring alternative futures they may spawn. It ponders both possibilities and pitfalls that cannot be ignored by instrumental players such as governments, policy makers, educational leaders, and business managers, researchers, and analysts. This book unveils rising cases of education business failures around the world, the paucity of governance and business skill on educational boards, and the irrational contradictions faced by governments in determining education policy.

Digital Systems for Open Access to Formal and Informal Learning Demetrios G. Sampson, Dirk Ifenthaler, J. Michael Spector, Pedro Isaias, 2014-07-17 Today Digital Systems and Services for Technology Supported Learning and Education are recognized as the key drivers to transform the way that individuals, groups, and organizations learn and the way to assess learning in 21st Century. These transformations influence Objectives moving from acquiring new knowledge to developing new and relevant competences. Methods moving from classroom based teaching to context aware personalized learning and Assessment moving from life long degrees and certifications to on demand and in context accreditation of qualifications. Within this context promoting Open Access to Formal and Informal Learning is currently a key issue in the public discourse and the global dialogue on Education including Massive Open Online Courses (MOOCs) and Flipped School Classrooms. This volume on Digital Systems for Open Access to Formal and Informal Learning contributes to the international dialogue between researchers, technologists, practitioners, and policy makers in Technology Supported Education and Learning. It addresses emerging issues related with both theory and practice as well as methods and technologies that can support Open Access to Formal and Informal Learning. In the twenty chapters contributed by international experts who are actively shaping the future of Educational Technology around the world, topics such as The evolution of University Open Courses in Transforming Learning, Supporting Open Access to Teaching and Learning of People with Disabilities, Assessing Student Learning in Online Courses, Digital Game based Learning for School Education, Open Access to Virtual and Remote Labs for STEM Education, Teachers and Schools ICT Competence Profiling, Web Based Education and Innovative Leadership in a K-12 International School Setting are presented. An in depth blueprint of the promise, potential, and imminent future of the field. *Digital Systems for Open Access to Formal and Informal Learning* is necessary reading for researchers and practitioners as well as undergraduate and postgraduate students in educational technology.

The Econocracy Joe Earle, Cahal Moran, Zach Ward-Perkins, 2017-07-06 A century ago the idea of the economy didn't exist. Now economics is the supreme ideology of our time with its own rules and language. The trouble is most

of us can't speak it This is damaging democracy Dangerous agendas are hidden inside mathematical wrappers controversial policies are presented as proven by the models of economic science Government is being turned over to a publicly unaccountable technocratic elite The Econocracy reveals that economics is too important to be left to the economists and shows us how we can begin to participate more fully in the decisions which affect all our futures
