Maths Literacy Paper 2012 Grd12 Mid Year:

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Imagined Liberation Heribert Adam, Kogila Moodley, 2013-12-01 On a spectrum of hostility towards irregular migrants, South Africa ranks on top, Germany in the middle and Canada at the bottom. South African xenophobic violence by impoverished slum dwellers is directed against fellow Africans. Why would a society that liberated itself in the name of human rights turn against people who escaped human rights violations or unlivable conditions at home? What happened to the expected African solidarity? Why do former victims become victimizers? *Imagined Liberation* asks what xenophobic societies can learn from other immigrant societies which avoided the backlash against multiculturalism in Europe.
