*Cambridge International AS and A Level English Language Coursebook* Mike Gould, Marilyn Rankin, 2014-08-21

Comprehensive student friendly resources designed for teaching Cambridge International AS and A Level English Language syllabus 9093 The core aim of this Coursebook is to help students to develop and apply the key skills they need to achieve in AS and A Level English Language They will build the skills needed for assessment through frequent activities Divided into two distinct parts for AS and A Level studies the book covers a wide range of reading skills such as understanding aspects of style voice and tone It also addresses the conventions of key kinds of writing and spoken language from scripted speeches to travel articles and looks at how they can capture these conventions in their own work Active Origami Edwin A. Peraza

Hernandez, Darren J. Hartl, Dimitris C. Lagoudas, 2018-07-12 Origami structures have the ability to be easily fabricated from planar forms enable the deployment of large structures from small volumes and are potentially reconfigurable These characteristics have led to an increased interest in theoretical and computational origami among engineers from across the world In this book the principles of origami active materials and solid mechanics are combined to present a full theory for origami structures The focus is on origami structures morphed via active material actuation and formed from sheets of finite thickness The detailed theoretical derivations and examples make this an ideal book for engineers and advanced students who aim to use origami principles to develop new applications in their field Handbook of Constructive Mathematics
