**La jouissance** Nestor Braunstein, 1992      **La jouissance** Néstor A. Braunstein, 2005 En introduisant le concept de jouissance en 1958 Lacan renouvelle et change la perspective de la théorie et de la clinique psychanalytiques Ce faisant il tablit une double opposition avec le plaisir d'une part et avec le désir d'autre part Cet ouvrage paru en France en 1992 et entièrement revu et actualisé dans cette nouvelle édition est aujourd'hui une référence incontournable Nestor Braunstein y rassemble les thèses de Lacan concernant ce concept central Il retrace de manière très détaillée les enjeux théoriques qui amènent la production du concept ainsi que ses développements successifs et ses conséquences sur la théorie de l'inconscient et la théorie de la sexualité Dans une deuxième partie consacrée à la clinique de la jouissance l'auteur psychanalyste argentin vivant au Mexique analyse les structures cliniques hystérie les perversions la psychose la toxicomanie etc en y débattant les visages de la jouissance car la pratique psychanalytique est déterminée par les incidences de la jouissance et par les faons du maître coup dont il lui faut s'en préserver On voit que cette réflexion sur le concept lacanien de jouissance engage un débat sur l'éthique de la psychanalyse

**The Cambridge Companion to Lacan** Jean-Michel Rabaté, 2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan's life and works Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline Advocating a return to Freud by which he meant a close reading in the original of Freud's works he stressed the idea that the unconscious functions like a language All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis This volume will bring fresh accessible perspectives to the work of this formidable and influential thinker These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike      Key

Concepts of Lacanian Psychoanalysis Dany Nobus, 2020-10-13 By detailing the constitutive incompleteness of the Lacanian project the contributors have guaranteed the success of their book which will remain a major reference for a long time to come Joan Copjec

**Lacan on Madness** Patricia Gherovici, Manya Steinkoler, 2015-02-11 This new collection of essays by distinguished international scholars and clinicians will revolutionize your understanding of madness Essential for those on both sides of the couch eager to make sense of the plethora of theories about madness available today Lacan on Madness Madness Yes You Can't provides compelling and original perspectives following the work of Jacques Lacan Patricia Gherovici and Manya Steinkoler suggest new ways of working with phenomena often considered impermeable to clinical intervention or discarded as meaningless This book offers a fresh view on a wide variety of manifestations and presentations of madness featuring clinical case studies new theoretical developments in psychosis and critical appraisal of artistic expressions of insanity Lacan on Madness uncovers the logics of insanity while opening new possibilities of treatment and cure Intervening in current debates about normalcy and pathology causation and prognosis the authors propose effective modalities of treatment and challenge popular ideas of what constitutes a cure offering a reassessment of the positive and creative potential of madness Gherovici and Steinkoler's book makes Lacanian ideas accessible by showing how they are both clinically and critically useful It is invaluable reading for psychoanalysts clinicians academics graduate students and lay persons

Lacan and Addiction Yael Goldman Baldwin, 2018-05-08 With chapters from Rik Loose Fabian Naparstek Patricia Gherovici Bruce Fink Thomas Svolos and many others the anthology is for people interested in the topic of addictions or in Lacanian psychoanalysis and especially for those interested in how the two intersect Lacan and Addiction is based on papers presented at a 2006 conference where Lacanians from around the world gathered to speak about addictions Conference participants explored the complexity of the problem for the individual society clinicians and for treatment In the current climate where addiction is mostly treated by variations of twelve step approaches and psychopharmacological countermeasures it is all too easy to lose sight of the dimensions of addiction that render it not just a disease to be managed but rather a significant form of human suffering and a subjective responsibility both of which are critical components of addiction treatment More and more addiction treatment is turning away from psychological and psychoanalytic theorization and towards psychopharmacological measures this anthology attempts to rectify that situation

Lacanian Psychoanalysis Gertrudis Van De Vijver, Jos Antonius Maria De Kroon, Rémy Potier, 2020-04-01

Encountering Transcendence Lieven Boeve, Hans Geybels, Stijn Van den Bossche, 2005 This volume consists of several contributions to a refined understanding of religious experience in view of contemporary theological epistemology Diverse sample studies taken from the extensive field of religion theology and religious studies reveal that religious experience is today clearly a pivotal issue More specifically this is made evident in modern theological hermeneutics and in the anti modern and or post modern reactions thereto the theology of world religions and inter religious dialogue the contemporary resurgence of religiosity in Western society and

culture and the so called turn to religion in contemporary continental philosophy It would appear from such studies that the category of religious experience is frequently called upon to clarify or explain the phenomenon of religion and religiosity on the one hand and to support and legitimise religious positions or the critique thereof on the other Because of the loss of plausibility of tradition bound religiosity and of foundational so called onto theological schemes religious experience has come to constitute for many the last or latest point of departure and anchor for religion and religious thinking This is certainly the case with respect to tendencies within contemporary Christian traditions and theological reflection In a multitude of ways and from a variety of different perspectives religious experience and experience of transcendence or of the divine have gained a prominent place in philosophical and fundamental theological conceptual schemes In reaction to this other authors have denied the very primacy given to religious experience in reflecting upon faith pointing to the constitutive role of tradition and narrative without which there is no religious experience From all this follows that the category of religious experience is in great need of reconceptualisation not least from a theological point of view On the one hand religious experience is all too easily called upon to legitimise religious claims often against tradition and on the other hand the category has become misleading in so far as it is tainted by the modern scientific understanding of experience in reaction to which tradition is then easily invoked to protect the core of religion Both young scholars at the preceding junior conference and senior scholars during the conference s paper sessions presented from diverse perspectives new ways to conceive of religious experience in view of today s challenges of secularisation religious plurality the aestheticisation of religion etc The selected contributions have been arranged in four thematically oriented parts Approaching Religious Experience in a Postmodern Age Modern re Thinking of Religious Experience Liberating Religious Experience and Challenges for Spirituality

**The Literary Lacan** Santanu Biswas, 2012 Some of the most well known psychoanalysts and literary theorists explore Jacques Lacan's influence on literature The relationship between literature and psychology is long and richly complex and no more so than in the work of Jacques Lacan the most controversial psychoanalyst since Freud The Literary Lacan From Literature to Literature and Beyond is dedicated to assessing Lacan's significant contribution to literary studies and the contribution in turn of literature to Lacanian

psychoanalysis The first essays in this collection provide close readings of Lacan's literature related work specifically his work on Hamlet his homage to Marguerite Duras and Lewis Carroll his concept of *Lituraterre* and his seminar on James Joyce Other essays examine Lacan's theories in conjunction with the works of major writers such as Samuel Beckett The book concludes with essays that investigate Lacan and literature more broadly including the applicability of literature to psychoanalysis With well known contributors including Slavoj Žižek Jacques Alain Miller Russell Grigg and Ellie Ragland this volume will appeal not only to specialists in literary and Lacanian theory but also to students and enthusiasts of the master and the literature that inspired him
