American Education and Society in the Balance Frank Pace,2014-05 For 160 years North American children have been
subject to compulsory schooling Formal education has evolved some over that time but the end result of said evolution is an
educational system which is dysfunctional inefficient and ultimately incapable of delivering on its professed mandates Frank
Pace is an educator with years of diverse experience In System vs Culture North American Education and Society in the
Balance he looks at the current state of compulsory North American education and sees a system in crisis He examines the
history of modern education and dissects the root causes of its profound dysfunction System vs Culture North American
Education and Society in the Balance offers some insight into how an alternative model of education might operate and how
it would better serve the needs of a changing society and better achieve its purported goals Frank Pace has many important
things to say about the state of North American education His arguments are persuasive and lucid and backed up by solid
scholarship While the topic is complicated he does a good job breaking it down in a way that is readable and compelling for
both education professionals and anyone interested in education and learning
