Chang,2009 Printers were powerful figures in the creation of early modern books they determined the physical appearance of books changed content and even altered or eliminated the name of the author to suit their own commercial and cultural interests These interventions encouraged the birth of modern notions of authorship for they compelled writers editors and printers to confront questions of textual ownership and authority In the publication of female authors however book producers had to grapple with new concerns about authority and value since female authors were few and far between and their appeal was far from guaranteed Certainly the novelty of female authors could represent both an economic and cultural niche for the enterprising printer but that same novelty in a culture unaccustomed to women's literary production was also a risky investment *Digital Cultures and the Politics of Emotion* Athina Karatzogianni,Adi Kuntsman,2012-03-13 Fifteen thought provoking essays engage in an innovative dialogue between cultural studies of affect feelings and emotions and digital cultures new media and technology The volume provides a fascinating dialogue that cuts across disciplines media platforms and geographic and linguistic boundaries *VideoHound's Golden Movie Retriever* Jim Craddock,2004 Reviews movies that are available on DVD or tape Each entry includes title alternate title one to four bone rating year released MPAA rating brief review length format country of origin cast technical personnel awards and made for television cable video designations
