Department of Social Development, 2016 [Human Resources Development Review 2008](#) Andre Kraak, Karen Press, 2008 Through 25 chapters authored by some of the leading researchers in the field the Human Resources Development Review 2008 provides an extensive overview of the contextual factors driving human resources development in South Africa A key theme throughout the volume is the importance of a multi-faceted skills development strategy operating at three levels The first entails high skills policies aimed at expanding export-oriented manufacturing production and services provision particularly in new globally competitive niche areas The second relates to the economy's ongoing need for intermediate skills as is evident in the shortage of skilled artisans and technologists Finally the provision of basic entry level skills is important in view of the urgent need for large scale job creation schemes triggered by public sector initiatives to ameliorate high levels of unemployment and despondency especially amongst the youth
