author considers attitudes towards teachers in Ireland The author suggests a breakdown in this respect linked to the classrooms of the past and a growing pressure on students to perform well in a market run system Our competitive drive in education is presented as yet another form of oppression in our country following on from the abuses of the Church and colonialism The book makes the claim that removing the stress and the singularity of the Leaving Cert could liberate Irish students There is a deep concern for social justice throughout In the later chapters the author places much focus on the importance of objective sex education in Irish schools referring to rising rates of harassment and violence in our universities The writer believes that a removal of a rigid academic approach to education would allow more time to discuss the physical and social realities of young people s lives and bodies The book closes where it began in considering the role of the teacher what the parameters of that role should be in a classroom devoted to helping children find their own individual paths and encouraging them to tell their own stories
