Legends of Babylon and Egypt in Relation to Hebrew Tradition Leonard William King, 2020-09-28

Legends of Babylon and Egypt in Relation to Hebrew Tradition Leonard King, 2015-02-26 This is a comprehensive look at some of the mythology and religious practices in Mesopotamia and Ancient Egypt From the preface In these lectures an attempt is made not so much to restate familiar facts as to accommodate them to new and supplementary evidence which has been published in America since the outbreak of the war But even without the excuse of recent discovery no apology would be needed for any comparison or contrast of Hebrew tradition with the mythological and legendary beliefs of Babylon and Egypt Hebrew achievements in the sphere of religion and ethics are only thrown into stronger relief when studied against their contemporary background The bulk of our new

material is furnished by some early texts written towards the close of the third millennium B C They incorporate traditions which extend in unbroken outline from their own period into the remote ages of the past and claim to trace the history of man back to his creation They represent the early national traditions of the Sumerian people who preceded the Semites as the ruling race in Babylonia and incidentally they necessitate a revision of current views with regard to the cradle of Babylonian civilization The most remarkable of the new documents is one which relates in poetical narrative an account of the Creation of Antediluvian history and of the Deluge It thus exhibits a close resemblance in structure to the corresponding Hebrew traditions a resemblance that is not shared by the Semitic Babylonian Versions at present known But in matter the Sumerian tradition is more primitive than any of the Semitic versions In spite of the fact that the text appears to have reached us in a magical setting and to some extent in epitomized form this early document enables us to tap the stream of tradition at a point far above any at which approach has hitherto been possible Though the resemblance of early Sumerian tradition to that of the Hebrews is striking it furnishes a still closer parallel to the summaries preserved from the history of Berossus The huge figures incorporated in the latter's chronological scheme are no longer to be treated as a product of Neo Babylonian speculation they reappear in their original surroundings in another of these early documents the Sumerian Dynastic List The sources of Berossus had inevitably been semitized by Babylon but two of his three Antediluvian cities find their place among the five of primitive Sumerian belief and two of his ten Antediluvian kings rejoin their Sumerian prototypes Moreover the recorded ages of Sumerian and Hebrew patriarchs are strangely alike It may be added that in Egypt a new fragment of the Palermo Stele has enabled us to verify by a very similar comparison the accuracy of Manetho's sources for his prehistoric period while at the same time it demonstrates the way in which possible inaccuracies in his system deduced from independent evidence may have arisen in remote antiquity It is clear that both Hebrew and Hellenistic traditions were modelled on very early lines

Legends of Babylon L W King, 2020-11-18 At the present moment most of us have little time or thought to spare for subjects not connected directly or indirectly with the war We have put aside our own interests and studies and after the war we shall all have a certain amount of leeway to make up in acquainting ourselves with what has been going on in countries not yet involved in the great struggle Meanwhile the most we can do is to glance for a moment at any discovery of exceptional interest that may come to light The main object of these lectures will be to examine certain Hebrew traditions in the light of new evidence which has been published in America since the outbreak of the war The evidence is furnished by some literary texts inscribed on tablets from Nippur one of the oldest and most sacred cities of Babylonia They are written in Sumerian the language spoken by the non Semitic people whom the Semitic Babylonians conquered and displaced and they include a very primitive version of the Deluge story and Creation myth and some texts which throw new light on the age of Babylonian civilization and on the area within which it had its rise In them we have recovered some of the material from which Berossus derived his dynasty of Antediluvian kings and we are thus enabled to

test the accuracy of the Greek tradition by that of the Sumerians themselves So far then as Babylonia is concerned these documents will necessitate a re examination of more than one problem The myths and legends of ancient Egypt are also to some extent involved The trend of much recent anthropological research has been in the direction of seeking a single place of origin for similar beliefs and practices at least among races which were bound to one another by political or commercial ties And we shall have occasion to test by means of our new data a recent theory of Egyptian influence The Nile Valley was of course one the great centres from which civilization radiated throughout the ancient East and even when direct contact is unproved Egyptian literature may furnish instructive parallels and contrasts in any study of Western Asiatic mythology Moreover by a strange coincidence there has also been published in Egypt since the beginning of the war a record referring to the reigns of predynastic rulers in the Nile Valley This like some of the Nippur texts takes us back to that dim period before the dawn of actual history and though the information it affords is not detailed like theirs it provides fresh confirmation of the general accuracy of Manetho's sources and suggests some interesting points for comparison

Legends of Babylon and Egypt in Relation to Hebrew Tradition Leonard W. King, 2010-01-01 The interconnected influences of different traditions of ancient mythology on one another consumed the archaeological efforts of the late 19th and early 20th century though much work in Britain and Europe was interrupted by the outbreak of World War I This fascinating 1918 study adapted from a series of lectures delivered to the British Academy in 1916 rings with the frustration of its British author A renowned classical scholar King incorporates the then latest research from American academics into his intriguing analysis of the impact of Babylonian and Egyptian mythology on the foundations of Judaism Drawing on newly discovered five thousand year old texts he weaves a narrative of the folklore of human origins unbroken from our earliest collective memories His comparison of the creation and deluge stories from a range of ancient Old World civilizations remains compelling today
