Conducting Immigration Evaluations Mariela G. Shibley,Matthew Holt,2022-04-28 This book prepares mental health professionals to conduct a thorough psychological assessment of individuals involved in immigration proceedings and present the results in a professional report Written by a licensed clinical psychologist with input from an attorney certified in Immigration and Nationality Law the book uses clear language that makes it accessible to experienced and novice therapists alike Chapters present a basic legal understanding of various types of immigration cases and detail the process of conducting the clinical interview choosing the psychological instruments appropriate for each case and writing the report The book also covers practical considerations such as testifying in immigration court and expanding your practice to include immigration evaluations Vignettes and sample reports link theory to real world situations drawing from the authors multiple years of combined experience This book is an essential guide for clinicians who want to assist the diverse and often disempowered population of immigrants and their families

Fusing Decision Support Systems Into the Fabric of the Context A. Respício,F. Burstein,2012-06-13 The field of Information Systems has been shifting from an immersion view which relies on the immersion of information technology IT as part of the business environment to a fusion view in which IT is fused within the business environment forming a unified fabric that integrates work and personal life as well as personal and public information In the context of this fusion view decision support systems should achieve a total alignment with the context and the personal preferences of users The advantage of such a view is an opportunity of seamless integration between enterprise environments and decision support system components Thus researchers and practitioners have to address the challenges of dealing with this shift in viewpoint and its consequences for decision making and decision support systems theories and applications This book presents the latest innovations and advances in decision support systems with a special focus on the fusion view These achievements will be of interest to all those involved and interested in decision making practice and research as well as more generally in the fusion view of modern information systems The book covers a wide range of topical themes including a fusion view of business intelligence and data warehousing applications of multi criteria decision analysis intelligent models and technologies for

decision making knowledge management decision support approaches and models for emergency management and medical and other specific domains
