Mathematics Eastern Cape Pgrade 11:

English-Medium Instruction and Translanguaging BethAnne Paulsrud,Zhongfeng Tian,Jeanette Toth,2021-01-20 This book offers a critical exploration of definitions methodologies and ideologies of English medium instruction EMI contributing to new understandings of translanguaging as theory and pedagogy across diverse contexts It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels in a variety of countries with different approaches to translanguaging different named languages and different policies These studies include several underrepresented contexts across the globe providing a broad view of how translanguaging in EMI is understood in these educational settings Furthermore this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom Learner Performance in South Africa Charles Edward Wickens Simkins,Andrew Paterson,2005 South Africa has done well to systematically expand its educational system and to lengthen the schooling experience of successive learner cohorts But the quality of the output from the school system has been questioned In seeking to identify the reasons for this it is important to relate educational outputs competencies as measured for instance by examinations or standardized tests to inputs Determining the relative contributions of the inputs of the school the household and the individual learner to educational outputs is not straightforward particularly since very little educational production function analysis has been undertaken in South Africa Until recently no South African school data has incorporated test results school characteristics and information on the household circumstances of individual learners necessary for this kind of analysis However the results from a survey of a sample of schools involved in the large scale Quality Learning Project QLP funded by the Business Trust have yielded such data The QLP data set offers a new analytical opportunity to address the question What are the effects of social and economic variables on educational outcomes in the QLP schools *Multiliteracies in International Educational Contexts* Gabriela C. Zapata,Mary Kalantzis,Bill Cope,2023-12-22 Multiliteracies in International Educational Contexts Towards Education Justice examines how multiliteracies and Learning by Design have been taken up across international second language instructional contexts with a focus on inclusive practices and social justice This edited collection brings together a team of international contributors to offer a global perspective on the application of multiliteracies in L2 education Through the analysis of classroom based qualitative and quantitative data on different aspects of the multiliteracies pedagogy the book shows how the multiliteracies pedagogy can facilitate more inclusive practices while providing suggestions for pedagogical interventions and future research This book will be a key resource for language educators researchers and practitioners interested in the multiliteracies pedagogy as well as those interested in critical and social justice approaches to language teaching **Annual Report** South Africa.
