Mathematics HI Paper Tzms:

Seven Papers in Applied Mathematics D. V. Anosov, V. G. Babskiĭ, V. S. Bondarchuk, 1985 These papers in applied mathematics have been carefully selected by a joint committee of the AMS the Association for Symbolic Logic ASL and the Institute of Mathematical Statistics IMS from publications not otherwise translated into English The translated papers are carefully edited prior to publication

Selected Papers Luogeng Hua, 1983 From the Preface by H Halberstam The unexpected arrival of Loo Keng Hua in Europe in the fall of 1978 was for many of us a romantic event a legend come to life What had long been and had seemed destined to remain merely a revered name in the mathematical annals of our times assumed suddenly the handsome presence of the man himself dignified yet jovial youthful yet wise serene yet ever questing for new achievements and we realized how very much we had missed by his thirty years absence from the international scene While the publication of theses Selecta from his writings needs no justification beyond what is in them it will I hope serve also as a way of saying a most cordial welcome back It has been an honor for me to play a small role in producing the Selecta To select only parts from the imposing whole is automatically to be wrong and it may well seem in the long run to quote loosely from a poem of Hua himself that I have repaid gifts in jade with artifacts of wood
