Government Reports Announcements ,1972 **Notices of the American Mathematical Society** American

Mathematical Society,1977 **Current Index to Journals in Education** ,1989 **China** World Bank,1993 The Republic of Korea s industrial policy has directed that nation s economy through nearly three decades of spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy s structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts *Arts & Humanities Citation Index* ,1998 **U.S. Government Research & Development Reports** ,1968 Exceptional Child Education Abstracts ,1969 Bibliography of Scientific and Industrial Reports ,1967-05 *alternative press index* ALTERNATIVE PRESS INDEX,2002 *Chicago Tribune Index* ,1995 **Mathematics N3 Student's Book** MJJ van Rensburg,2014 **Mathematics N3** Marthinus Johannes Janse Van Rensburg,1998
