Internet has considerably changed the face and map and the shape of the globe. The present age is generally referred to as the age of communication or the era of information. This world has become an electronic village. Distances have been shortened and the time has shrunk. This has only been possible due to the advent of computer and spreading of satellites. The expanded webs of internet takes no time to process information and directing to its desired destination. The way all this is done is called "Information Technology". In the boom up, generation and projection of information technology, internet is the most powerful tool.

Internet benefits people in the following way:

- All the sizeable business empires working have got better.
- Banking system is by all means computerized. All the branches of a network are connected with each other and also with central branch. Online banking works because of this network.
- Bankers do not maintain long and lengthy registers for the record of their clients.
- Facsimile (fax) and Electronic mail (e-mail) have proved their worth. People living at distant places or abroad remain in contact with their dear and near ones.
- Relations and friends chat freely without any anxiety of high charges.
- Internet is a wide bank of information. The stuff of all the subjects, topics and kinds is available in plenty. When an operator wants to explore some websites of his necessity, there is a storming appearance of the stuff desired.
- Internet has supplemented to working of TV networks and made it a magic box.
- Business, social, political, intellectual and marital connections are arranged.
