

# Metaphor

vs

# Simile

● a literary device used to *directly* compare things

● states that one thing *is* another thing

## Examples

- The unplanned renovation *is* a disaster waiting to happen.
- We are a fleeting speck of dust.
- Everyday with you *is* a fairytale.

● a literary device used to make *explicit* comparisons

● uses the words “*as*” and “*like*” to compare things

● all similes are metaphors, but not all metaphors are similes.

## Examples

- His room *is like* a disaster area.
- Forgetting her is *as hard as* remembering a stranger.
- Our wedding was *like* a fairytale.

## Metaphors About Playing:

**Playing with Possibilities** Peter O'Connor, Claudia Rozas, 2018-01-23 Playing with Possibilities sits at the heart of all creative endeavours This collection brings together a multidisciplinary group of thinkers and writers to explore the potential of play to shape and reshape who we are and the worlds in which we live It offers a series of encounters with playful possibilities and asks us to question consider and ultimately celebrate the importance of fanciful approaches to living This book is a companion to *The Possibilities of Creativity* 2016 [Metaphors and Word-plays in Petronius ...](#) James Walker Downer, 1913 *The Enigma of Metaphor* Stefana Garelo, 2024-03-30 This book deals with the complicated realm of metaphor an enigma deeply embedded in language and cognition There has been much discussion of metaphor in the past but it was characterized by a certain fragmentation and lacked interdisciplinarity In this field of study the dominance of Cognitive Linguistics epitomized by the Conceptual Metaphor Theory of George Lakoff and Mark Johnson has caused the marginalization of alternative perspectives To fill this gap this book embarks on an interdisciplinary journey inviting different theoretical frameworks to engage in a fruitful dialog It navigates the labyrinth of theories and illuminates the nuanced facets of metaphor At the center of this exploration are three central questions whether metaphor belongs to the realm of style or thought the intricate interplays between literal and metaphorical meanings and the integration of propositional and non propositional elements in the construction of metaphorical meaning Through a careful blend of historical analysis and contemporary hypotheses the book unravels the complexities of metaphor considering its evolution across the centuries and the myriad interpretations it evokes By bringing together work from different fields it ultimately shows that a definition of metaphor is theory dependent and that metaphor is not a natural kind but a complex and multifaceted philosophical concept whose study requires a multi dimensional approach that transcends narrow theoretical boundaries In this way the book explores these considerations most important philosophical consequences and offers new insights into this fundamental aspect of human language *A Dictionary of English Phrases* Albert Montefiore Hyamson, 1922 **Lewis Carroll's "Alice" and Cognitive Narratology** Francesca Arnavas, 2021-01-18 We live in an age that is witnessing a growing interest in narrative studies cognitive neuroscientific tools mind studies and artificial intelligence hypotheses This book therefore aims to expand the exegesis of Carroll's Alice books aligning them with the current intellectual environment The theoretical force of this volume lies in the successful encounter between a great book and all its polysemous ramifications and a new interpretative point of view powerful enough to provide a new original contribution but well grounded enough not to distort the text itself Moreover this book is one of the first to offer a complete thorough analysis of one single text through the theoretical lens of cognitive narratology and not just as a series of brief examples embedded within a more general discussion It emphasises in a more direct effective way the actual novelty and usefulness of the dialogue established between narrative theory and the cognitive sciences It links specific concepts elaborated in the theory of cognitive narratology with

the analysis of the Alice books helping in this way to discuss question and extend the concepts themselves opening up new interpretations and practical methods *Metaphor and Discourse* A. Musolff, J. Zinken, 2009-03-26 The contributors present a coherent collection of work on the functioning of metaphor in public discourse and related discourse areas from a broadly cognitive linguistic background providing a state of the art overview of research on the discursive grounding of metaphor from a cognitive linguistic perspective Experiential Learning in Philosophy Julinna Oxley, Ramona Ilea, 2015-08-27 In this volume Julinna Oxley and Ramona Ilea bring together essays that examine and defend the use of experiential learning activities to teach philosophical terms concepts arguments and practices Experiential learning emphasizes the importance of student engagement outside the traditional classroom structure Service learning studying abroad engaging in large scale collaborative projects such as creating blogs websites and videos and practically applying knowledge in a reflective creative and rigorous way are all forms of experiential learning Taken together the contributions to *Experiential Learning in Philosophy* argue that teaching philosophy is about doing philosophy with others The book is divided into two sections essays that engage in the philosophical debate about defining and implementing experiential learning and essays that describe how to integrate experiential learning into the teaching of philosophy *Experiential Learning in Philosophy* provides a timely reflection on best practices for teaching philosophical ideals and theories an examination of the evolution of the discipline of philosophy and its adoption or reclamation of active modes of learning and an anticipation of the ways in which pedagogical practices will continue to evolve in the 21st century **Metaphors We Drill By?** Cristhian Welter, 2010-12-31 Bachelor Thesis from the year 2010 in the subject English Language and Literature Studies Linguistics grade 2.1 Technical University of Chemnitz language English abstract The Deepwater Horizon Oil Spill has caused an ecological disaster of unknown magnitude In this respect the institutions involved in this incident did not have a good standing in public As the major party responsible for the accident BP has been criticized heavily by the people and the government The White House although not directly responsible is also held accountable for the disaster by many folks These two organizations have had to engage in an uphill battle against the media and especially the public Both have made attempts to ease the tensions and to confront the criticism put forward by the American people as well as the global community BP and the White House have made use of speeches and remarks to establish a connection between them and the people In these speeches officials from BP and the President of the United States respectively have made it their goal to inform the public about the latest happenings concerning the Deepwater Horizon Oil Spill and their response efforts Every event of such magnitude is an opportunity for certain parties involved to present themselves from their best side and is therefore exploited accordingly In this respect the speeches serve as linguistic tools to communicate certain images that are intended to be conveyed by their speakers With this in mind this paper will analyze the speeches published by BP and the Obama Administration respectively The ultimate goal is to find out what metaphors are used in the speeches and what images are conveyed through their use It was

suggested that both parties have specific agendas that could be uncovered by looking at the use of specific metaphors What can these metaphors and their conveyed images tell the hearer about these agendas Are there certain agendas that the respective parties want **Metaphor and Simile in the Minor Elizabethan Drama** Frederic Ives Carpenter,1895

**Aristotle on Metaphors** Luisa Moser,2023-08-21 Seminar paper from the year 2018 in the subject Philosophy Miscellaneous grade 1.0 University of Dusseldorf Heinrich Heine Philosophie course Cognitivist Science language English abstract The topic of Metaphors is both one of the most prolific and most demanding topics in linguistics and cognitive sciences Tracing their investigative ontology Aristotle is considered to be the first to write about them with the purpose of analysing how they are constructed In revising the relevance of Aristotle's insights for the sciences in question this paper raises the following question Is Aristotle's analysis of the creative process that gives rise to metaphors comparable to the recent results yielded by modern research *Metaphor* E.
