growth factors and oncogenes bioenergetics proton pumps and ion pumps and channels topogenesis and protein secretion molecular virology and immunology membrane protein analysis and receptor research In fact the key methods are now on hand to unravel many of the major outstanding problems of molecular biology and in particular questions of fundamental interest which relate to developmental biology and specificity in cell-cell interaction In this volume we have assembled descriptions of procedures which have recently been shown to be efficacious for the isolation purification and chemical characterization of proteins and peptides that are only available in minute amounts Emphasis is placed on well established micromethods which have been tested and found useful in many laboratories by experienced investigators The chapters are written by specialists and describe a range of sensitive techniques which can be used by researchers working in laboratories with only modest resources and equipment

Guidelines for Molecular Analysis in Archive Tissues Giorgio Stanta, 2016-08-23 A huge amount of fixed and paraffin embedded tissue is stored in every hospital This is very precious material that can be used for translational research and for diagnostics The molecular methods employed for analysis of these tissues are similar to the usual molecular biology and proteomics methods but reliable results can be obtained only if specific steps are followed with great care This book provides detailed and precise guidelines for molecular analysis of archive tissues and will serve as an invaluable aid for researchers and pathologists involved in translational research and diagnostics Clear notes and explanations are included to simplify use of the protocols for the less experienced The authors are a group of acknowledged experts who have developed the described methods and validated them within the European project Archive Tissues Improving Molecular Medicine Research and Clinical Practice IMPACTS which has involved 21 leading institutions in 11 countries
