## **Mg And Mg Machine Guns:**

**MG 34 and MG 42 Machine Guns** Chris McNab,2012-10-20 With the MG 34 the German Wehrmacht introduced an entirely new concept in automatic firepower the general purpose machine gun GPMG In itself the MG 34 was an excellent weapon an air cooled recoil operated machine gun that could deliver killing firepower at ranges of more than 1 000m Yet simply by changing its mount and feed mechanism the operator could radically transform its function On its standard bipod it was a light machine gun ideal for infantry assaults on a tripod it could serve as a sustained fire medium machine gun During World War II the MG 34 was superseded by a new GPMG the MG 42 More efficient to manufacture and more robust it had a blistering 1 200rpm rate of fire Nicknamed Hitler s buzzsaw by Allied troops it was arguably the finest all round GPMG ever produced and alongside the MG 34 it inflicted heavy casualties Featuring specially commissioned full colour artwork and drawing upon numerous technical manuals and first hand accounts this study explores the technological development varied roles and lasting influence of the revolutionary MG 34 and MG 42 machine guns and their postwar successors *The German MG 34 and MG 42 Machine Guns* Luc Guillou,Erik DuPont,2020 The German MG Maschinengewehr 34 along with the later war MG 42 was a recoil operated air cooled machine gun and is considered the world s first general purpose machine gun Considered the most advanced machine gun in the world at the time its ease of mobility and high rate of fire 900 rounds per minute made it ideal both for infantry and antiaircraft use First entering service during the Spanish Civil War in 1936 it remained in Wehrmacht service through the end of WWII in 1945 along with its updated model the MG 42 This illustrated book presents the design manufacturing and development both of the MG 34 and MG 42 from its acceptance by the German military through production and combat use from 1936 to 1945 Details include close up views of markings and other details as well as a breakdown of the weapon Accessories such as ammunition and gun mounts are featured throughout the book as are rarely seen combat related uniform and equipment items **German Machine Guns of World War I** Stephen Bull,2016-05-19 World War I s defining weapon for many Germany s MG 08 machine gun won a formidable reputation on battlefields from Tannenberg to the Somme Although it was a lethally effective weapon when used from static positions the MG 08 was far too heavy to perform a mobile role on the battlefield As the British and French began to deploy lighter machine guns alongside their heavier weapons the Germans fielded the Danish Madsen and British Lewis as stopgaps but chose to adapt the MG 08 into a compromise weapon the MG 08 15 which would play a central role in the revolutionary developments in infantry tactics that characterized the last months of the conflict In the 1940s the two weapons were still in service with German forces fighting in a new world war Drawing upon eyewitness battlefield reports this absorbing study assesses the technical performance and combat record of these redoubtable and influential German machine guns and their strengths and limitations in a variety of battlefield roles *Machine Guns* Julian Sommerville Hatcher,1917 *Instruction on the Lewis Automatic Machine Gun* ,1917 **Employment of Machine Guns** Walter Campbell Short,1922
