## **Learning Curves Passionate Lessons English Edition:**

*Passion and Industry*, 2001      **The Learning Curve** Judith Marks Mishne, 1996 Dr Judith Mishne's book shows how to raise self-reliant children who thrive at school. Written for parents and for professionals working with children and their parents, this book demonstrates that children's social development must be given paramount importance in order for them to achieve long-term school success. Particularly in the early years, a child's sense of self and his or her ability to trust the environment are the qualities that need to be nurtured more than cognitive skills. Dr Mishne shows parents how to be effective caregivers by knowing realistically what to expect from a child based on a well-illustrated developmental timetable and an appreciation for individual differences. From supporting bids for autonomy to structuring homework assignments, she gives parents the know-how for managing challenges. She also dispels popular misconceptions about children that can impede healthy parent-child interaction and child development. Throughout, Dr Mishne suggests how to engender in children independence, self-confidence, and a sense of responsibility for themselves and their studies.      **Only With Passion** Katarina Witt, 2007-01-23 In the glamorous ultra-competitive world of figure skating, Katarina Witt is a living legend. She has won more titles than anyone else before her, including two Olympic gold medals, four world championships, and eight national championships. She is also renowned for independence and self-possession in a world where many stars are in thrall to management companies and for her ability to stay true to skating while developing new careers in business, movies, and television. Witt has always done whatever she's done with all her heart, with passion, intelligence, and a love of perfection. Now in *Only with Passion*, she offers advice to a new generation of women athletes making their way in the world on how to live, full out, compete with edge, and navigate life with grace. When a young skater consults her for advice on whether to train abroad and leave a boyfriend behind, Witt finds occasion to recall the major turning points of her own journey from her East German childhood to the international spotlight. She shares her inside perspective and frank opinions on the insular world of skating and offers her views about what it takes to be a champion and to create a fulfilling life. Whether she's talking about life on or off the ice or on the cover of *Playboy*, Witt is always candid, fresh, and down to earth. Written with E. M. Swift, author of *My Sergei*, one of the best-selling skating books of all time, *Only with Passion* is the perfect gift for young women, young athletes, particularly skaters, and skating fans of all ages.      **The Learning Curve** Dr. Suminder Singh, 2025-05-12 *The Learning Curve* by Dr Suminder Singh is a powerful reflection on school leadership, modern education, and transformative administration. With over 24 years of experience and a pivotal role as the Founder and Managing Director of International Delhi Public School, Dr Singh shares insights on building impactful, student-centered institutions. The book also highlights his journey, academic achievements, and his unwavering commitment to community service. A must-read for educators, administrators, and those passionate about the future of learning.      *Resources in Education*, 1997      **NT Learning Curve**, 1997      *The Complete Sourcebook on Children's Software* Children's Software Review, 2001-03 5000 critical reviews of CDs
