

BRAIDER.

Use of the ordinary Press-Foot and substitute the Braider-Foot. Inserted through the Press Hole in Braider-Foot and place the end of the thread under the Braider-Foot, and then proceed as in ordinary sewing. Every class of Decorative Braiding may be as easily executed as ordinary sewing.

TO THREAD THE SHUTTLE.

Take the Shuttle in the left hand, between the thumb and the two first fingers, with the Shuttle point towards you. Fig. 6 shows you how to put the Bobbin into the Shuttle. Be sure that the thread runs off the top side of the Bobbin (as illustrated). This is very important. Place the reel in the Shuttle pointed end downwards, pull the thread down the slot in the Shuttle as far as it will go (see Fig. 6). Now pull the thread up the slot underneath the spring (as shown in Fig. 7), leaving about 2 inches of loose thread, and the Shuttle is threaded without having to pass the thread through a single hole—in fact, this Shuttle is really and absolutely SELF-THREADING.

When the Front Shuttle Cover is withdrawn, be sure you Oil the Cotton Waste in the Cap that lubricates the Shuttle, and the Shuttle-race. This is important.

TO REGULATE THE SHUTTLE TENSION.

Always use this special small Screwdriver as a tool to damage the Shuttle Tension Screw.

By turning this Screw to the right you increase or tighten the Shuttle Tension.

By turning the Screw to the left you decrease or slacken the Shuttle Tension.

The Shuttle Tension should never be as tight as the Needle or Top Tension.

Shuttle Tension Screw

Be sure you OIL Cotton Waste in the Cap that Lubricates the SHUTTLE

Shuttle Tension Screw
