Mexico Between Hitler And Roosevelt:

   Mexico Between Hitler and Roosevelt Friedrich Engelbert Schuler,1998 Mexico s relationship with the world during the 1930s is revealed as a fascinating series of calculated responses to domestic political changes and international economic shifts   **Mexico Between Hitler and Roosevelt** Friedrich Engelbert Schuler,1998 This is the first book to analyze the link between Mexico s foreign and domestic relations in the 1930s By studying the regime of President Lazaro Cardenas 1934 1940 Professor Schuler substantially revises our understanding of how Cardenas asserted Mexico s economic and political sovereignty and also consolidated one party rule and state directed capitalism Amid a deteriorating international climate and worldwide depression a cadre of technocrats and ministers under Cardenas consistently advanced domestic goals in their foreign policy initiatives particularly the centralization of the economy and the industrialization of Mexico Drawing on impressive research in Mexico the United States Germany and Great Britain Professor Schuler shows that Cardenas was far less of a doctrinaire leftist at home and abroad than previously assumed especially in his ongoing economic contacts with Nazi Germany before and after Mexico s expropriation of oil in March 1938   **Mexico's Relations with Latin America during the Cárdenas Era** Amelia M. Kiddle,2016-10-15 This book examines culture and diplomacy in Mexico s relations with the rest of Latin America during the presidency of L zaro C rdenas 1934 1940 Drawing on archival research throughout Latin America the author demonstrates that C rdenas s representation of Mexico as a revolutionary nation contributed to the formation of Mexican national identity and spread the legacy of the Mexican Revolution of 1910 beyond Mexico s borders C rdenas did more than any other president to fulfill the goals of the revolution incorporating the masses into the political life of the nation and implementing land reform resource nationalization and secular public education and his government promoted the idea that these reforms represented a path to social political and economic development for the entire region Kiddle offers a colorful and detailed account of the way Cardenista diplomacy was received in the rest of Latin America and the influence his policies had throughout the continent   *The Agrarian Dispute* John Dwyer,2008-09-12 Focuses on U S Mexican relations in postrevolutionary Mexico placing Cardenas s agrarian reform including the nationalization of American owned Mexican farmland in an international context   The Second Century Mark T. Gilderhus,2000 The Second Century U S Latin American Relations since 1889 focuses on U S relations with Latin America during the second century a period bounded by the advent of the New Diplomacy late in the nineteenth century and the end of the Cold War about one hundred years later This text provides a balanced perspective as it presents both the United States s view that the Western Hemisphere needed to unite under a common democratic capitalistic society and the Latin American countries response to U S attempts to impose these goals on their southern neighbors This book examines the reciprocal interactions between the two regions each with distinctive purposes outlooks interests and cultures It also places U S Latin American relations within the larger context of global politics and economics The Second Century is an excellent text for courses in Latin American
