McConnell, 2002 McConnell Brue's Principles of Macroeconomics 15e is the best selling textbook and has been teaching students in a clear unbiased way for 40 years The 14th edition grew market share because of its clear and careful treatment of principles of macroeconomics concepts its balanced coverage and its patient explanations More students have learned their principles of Macroeconomics from McConnell Brue than any other text 12 million of them The 15th edition is a substantial revision that delivers a tighter modern Internet savvy book *The Economics Anti-Textbook* Rod Hill, Professor Tony Myatt, 2010-03-11 Mainstream textbooks present economics as an objective science free from value judgements that settles disputes by testing hypotheses that applies a pre determined body of principles and contains policy prescriptions supported by a consensus of professional opinion The Economics Anti Textbook argues that this is a myth one which is not only dangerously misleading but also bland and boring It challenges the mainstream textbooks assumptions arguments models and evidence It puts the controversy and excitement back into economics to reveal a fascinating and a vibrant field of study one which is more an art of persuasion than it is a science The

Economics Anti Textbook s chapters parallel the major topics in the typical text beginning with a boiled down account of them before presenting an analysis and critique Drawing on the work of leading economists the Anti Textbook lays bare the blind spots in the texts and their sins of omission and commission It shows where hidden value judgements are made and when contrary evidence is ignored It shows the claims made without any evidence and the alternative theories that aren t mentioned It shows the importance of power social context and legal framework The Economics Anti Textbook is the students guide to decoding the textbooks and shows how real economics is much more interesting than most economists are willing to let on **Study Guide to Accompany McConnell and Brue Microeconomics** McConnell,William B.
