Campbell R. McConnell, Stanley L. Brue

McConnell Brue Economics 17th Edition:

Economics Campbell McConnell, Stanley Brue, 2006-10-24 McConnell and Brue's *Economics Principles Problems and Policies* is the leading Principles of Economics textbook because it is innovative and teaches students in a clear unbiased way. The 17th Edition builds upon the tradition of leadership with three main goals: help the beginning student master the principles essential for understanding the economizing problem; specific economic issues and the policy alternatives help the student understand and apply the economic perspective and reason accurately and objectively about economic matters and promote a lasting student interest in economics and the economy.

The SAGE Glossary of the Social and Behavioral Sciences Larry E. Sullivan, 2009-08-31 Highly accessible A-Z of the major terms in the social and behavioural sciences spanning anthropology, communication and media studies, criminal justice, economics, education, geography, human services, management, political science, psychology and sociology.

FROM RETROECONOMICS TO SANCTIONOMICS: ESSAYS ON UNCONVENTIONAL ECONOMICS Vladimer Papava, 2024-12-04 A wide-ranging stimulating and unconventional set of essays on the state of economics and economic policy. Everyone will find something of interest in these reflections.

DANI RODRIK Professor of International Political Economy, Harvard's John F. Kennedy School of Government, Harvard University, President of the International Economic Association, USA. A wide-ranging group of essays on current issues of economic policy informed by theory and enlightened by the perspective of an astute observer in post-Soviet Georgia with excellent views facing both East and West.

JAMES K. GALBRAITH Lloyd M. Bentsen Jr. Chair in Government Business Relations and Professor of Government, The University of Texas at Austin, USA. Professor Vladimer Papava has lived through major upheavals such as a post-socialist transition and a global financial crisis, keeping an eye on the developments from his vantage point in Tbilisi, Georgia. The stimulating essays that have resulted from his observations collected in this volume share a heterodox stance, one that showcases appreciation for and creative destruction of mainstream economics. Economists and other social scientists will be introduced to novel promising approaches which themselves derive from an enviably wide-ranging examination of the international literature. Just as we learn in Professor Papava's essays how to avoid a post-socialist necroeconomy where production of goods with no demand continues, the volume itself helps protect us against a necroeconomic scientific discipline. May the unconventional become conventional.

JAMES A. LEITZEL Executive Director of Public Policy Studies, Harris School of Public Policy, University of Chicago, USA. A book to be read and studied as one digs through a mine in search of many gold veins in this case, formed through the author's intellectual curiosity, long-standing scholarly work and experience.

SERGIO MARIOTTI Professor Emeritus, Dept of Management, Economics and Industrial Engineering, Politecnico di Milano, Italy.
