Activity Peter J. Buckley, John H. Dunning, 1994 Covid-19 and International Business Marin Marinov, Svetla Marinova, 2020-12-20 The COVID 19 pandemic has induced a crisis grasping the world abruptly simultaneously and swiftly. As a critical juncture, it ignited a change of era for international business. This book illustrates how governments have dealt with the pandemic and the consequent impacts on international business. It also explores the disrupted operations and responses of businesses as their worldwide interconnectivity has been seriously threatened. The book discourses multidirectional aspects of the effects of COVID 19 on international business, ranging from the juxtaposing forces disrupting globalization and installing a change of era through decoupling of technological production and knowledge flows to its stimulating aspects to the strategic response on business industry and state level. The book contains thirty chapters that offer a multidimensional interpretation of impacts of COVID 19 on international business theory and practice. Employing the latest state of knowledge on the topic, the book is aimed at an international business audience: scholars, students, and managers who need to understand better the nature, scope, and scale of the impacts of the pandemic on international business.

CSR Strategies in International Business. Concepts and theories for a competitive edge Jonas Feller, 2015-12-07 For decades, multinational corporations benefited from developing countries mainly as a source of cheap labour and weak regulations. Even when corporate social responsibility (CSR) was embraced, it has been tailored to customers in the developed world. With the rise of the middle class in emerging economies and social media-driven scrutiny of corporate conduct around the globe, CSR increasingly requires an international outlook. Adopting strategic CSR in international business provides multinational corporations with a competitive edge. An emerging field of research around international CSR points to global, local, and transnational strategies as viable options. Considering impacting variables such as cultural distance, industry features, and brand visibility, recommendations are derived for managers that advance the concept of shared value for business and society. In addition, a set of future research questions is outlined to further the
