Life Science Question Paper 1 2014 November 21:

Rethinking Research Methods in an Age of Digital Journalism Michael Karlsson, Helle Sjøvaag, 2018-10-18 The digital infrastructure of media production dissemination and consumption is becoming increasingly complex presenting the challenge of how we should research the digital journalism environment Digital journalism takes many forms we therefore need to revise improve adjust and even invent methods to understand emerging forms of journalism In this book scholars at the forefront of methodological innovations in digital journalism research share their insights on how to collect process and analyse the diverse expressions of digital journalism including online news search results hyperlinks and social media posts As digital journalism content often comes in the form of big data many of these new approaches depart from the traditional methods used in media research in significant ways As we move towards new ways of understanding digital journalism the methods developed for such purposes also need to be grounded in scientific rigour This book aims to share some of the emerging processes by which these methods tools and approaches are designed implemented and validated As such this book not only constitutes a benchmark for thinking about research methods in digital journalism it also provides an entry point for graduate students and seasoned scholars aiming to do research on digital journalism This book was originally published as a special issue of Digital Journalism *Pharmaceutical Industry and Public Policy in Post-reform India* Reji K.

Joseph, 2015-07-24 This book examines the impact of economic reforms in India on the pharmaceutical industry and access to medicines It traces the changing production and trade pattern of the industry research and development R D preferences and strategies of Indian pharmaceutical firms patent system alongside pricing policy measures and their shortcomings It also analyses the public health financing system in India driven largely by out of pocket expenditure about 60 per cent and characterised by very high share of medicines in total health expenditure A masterful insight into a topical area the work will be indispensable to those working on pharmaceutical industry and public policy It will be of interest to researchers scholars students and policy makers of economics industrial policy public policy intellectual property rights and health financing A Framework for Assessing Effects of the Food System National Research Council, Institute of Medicine, Board on Agriculture and Natural Resources, Food and Nutrition Board, Committee on a Framework for Assessing the Health, Environmental, and Social Effects of the Food System, 2015-06-17 How we produce and consume food has a bigger impact on Americans well being than any other human activity The food industry is the largest sector of our economy food touches everything from our health to the environment climate change economic inequality and the federal budget From the earliest developments of agriculture a major goal has been to attain sufficient foods that provide the energy and the nutrients needed for a healthy active life Over time food production processing marketing and consumption have evolved and become highly complex The challenges of improving the food system in the 21st century will require systemic approaches that take full account of social economic ecological and evolutionary factors Policy or business interventions involving a segment of the food system often

have consequences beyond the original issue the intervention was meant to address A Framework for Assessing Effects of the Food System develops an analytical framework for assessing effects associated with the ways in which food is grown processed distributed marketed retailed and consumed in the United States The framework will allow users to recognize effects across the full food system consider all domains and dimensions of effects account for systems dynamics and complexities and choose appropriate methods for analysis This report provides example applications of the framework based on complex questions that are currently under debate consumption of a healthy and safe diet food security animal welfare and preserving the environment and its resources A Framework for Assessing Effects of the Food System describes the U S food system and provides a brief history of its evolution into the current system This report identifies some of the real and potential implications of the current system in terms of its health environmental and socioeconomic effects along with a sense for the complexities of the system potential metrics and some of the data needs that are required to assess the effects The overview of the food system and the framework described in this report will be an essential resource for decision makers researchers and others to examine the possible impacts of alternative policies or agricultural or food processing practices

Why We Need the Humanities Donald Drakeman, 2016-02-25 An entrepreneur and educator highlights the surprising influence of humanities scholarship on biomedical research and civil liberties This spirited defence urges society to support the humanities to obtain continued guidance for public policy decisions and challenges scholars to consider how best to fulfil their role in serving the common good

Pandora's Gamble Alison Young, 2023-04-25 Named to Kirkus Reviews Best Books of 2023 A remarkable book The New York Times This fearless deeply reported book about laboratory accidents asks the haunting question some elite scientists don't want the public to entertain Did the COVID 19 pandemic start with a lab leak in Wuhan China This is an obvious question Yet there's been an extraordinary effort by government officials in China as well as leading scientific experts in the United States and around the world to shut down any investigation or discussion of the lab leak theory In private however some of the world's elite scientists have seen a lab accident as a very real and horrifying possibility They know what the public doesn't Lab accidents happen with shocking frequency Even at the world's best run labs That's among the revelations from Alison Young the award winning investigative reporter who has spent nearly 15 years uncovering shocking safety breaches at prestigious U S laboratories for USA Today and other respected news outlets In Pandora's Gamble Young goes deep into the troubling history and enormous risks of leaks and accidents at scientific labs She takes readers on a riveting journey around the world to some of the worst lab mishaps in history including the largely unknown stories of the lab workers at the U S Army's Camp Detrick who suffered devastating infections at alarming rates during World War II And her groundbreaking reporting exposes for the first time disturbing new details about recent accidents at prestigious laboratories and the alarming gaps in government oversight that put all of us at risk Sourced through meticulous reporting and exclusive interviews with key players including Dr Anthony Fauci former CDC Director

Tom Frieden and others Young's examination reveals that the only thing rare about lab accidents is the public rarely finds out about them Because when accidents happen powerful people and institutions often work hard to keep the information secret **The Life of a Number** B.T. Lawson,2023-04-28 Do numbers have a life of their own or do we give them meaning

How do data play a role in constructing people's perceptions of the world around them How far can we trust numbers to speak truth to power The COVID 19 pandemic offers a unique moment to answer these questions This book examines how politicians experts and journalists gave meaning to data through the story of seven iconic numbers from the pandemic Shedding light on a new dawn of data this book makes a valuable contribution to our understanding of the relationship between numbers meaning and society ECEL 2020 19th European Conference on e-Learning Prof. Dr.-Ing.
