An Age of Accountability John L. Rury,2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

Educational Digital Transformation: New Technological Challenges for Competence

Development Julio Cabero Almenara,Carmen Llorente Cejudo,Antonio Palacios-Rodriguez,2023-10-09 The COVID 19 pandemic has provided a unique opportunity to examine our understanding of the opportunities and challenges that ICTs offer to support the functioning of all aspects of education The closure of educational institutions has forced a radical change in the practices of teachers and societies regarding the use of ICT to support teaching learning social relations and work in many sectors In the training of digital skills the instrumental mastery of ICT continues to outweigh the preparation of citizens to make constructive and safe use of technologies After two decades of educational policies we continue to reduce digital literacy to instrumental skills That is you do not learn why to use educational technologies and how or to be critical of their use Education 4 0 seeks to develop and enhance the digital skills of students and teachers in digital teaching environments through the creation of a line of academic training programs for undergraduate postgraduate and continuing education This
