Life Science Paper Exam Sheet 2 November 2014:

Self-determination in Health Care Leroy C. Edozien, 2016-03-03 It is generally accepted in legal and bioethical discourse that the patient has a right to self determination In practice though this is often not the case Paternalism is waning and it is increasingly recognised that there are values other than medical factors which determine the choices that patients make Unfortunately these developments have not resulted in huge advances for patient self determination which is largely because the consent model has fundamental flaws that constrain its effectiveness This book sets out to offer an alternative model to consent In the property model proposed here the patient s bodily integrity is protected from unauthorised invasion and their legitimate expectation to be provided with the relevant information to make an informed decision is taken to be a proprietary right It is argued that the property model potentially overcomes the limitations of the consent model including the obstacle caused by the requirement to prove causation in consent cases The author proposes that this model could in the future provide an alternative or complementary approach for the courts to consider when dealing with cases relating to self determination in health care *AIIMS Annual Report* All-India Institute of Medical Sciences, 2014 The Troubled Rhetoric and Communication of Climate Change Philip Eubanks, 2015-05-15 Despite an overwhelming scientific consensus climate change remains one of the most controversial issues of our time Focusing on the rhetoric that surrounds the issue of climate change this groundbreaking book analyses why the debate continues to rage and examines how we should argue when winning the argument really matters Going beyond routine condemnations of the wildest statements made by religious fundamentalists or spokespeople for fossil fuel interests the book explains the mutually exacerbating problems that permit many of us greet catastrophic predictions with an equivocal shrug It argues that the argumentative situation around climate change makes a certain kind of skepticism fair minded skepticism not only possible but likely The book also strikes a hopeful note reminding us that people do change their minds in response to effective argumentation that appeals to deeply shared values Offering new insight into an ongoing academic discussion about the nature of argument and how it can be undertaken more effectively and ethically as well as a new perspective on the rhetoric of science and technology this book will be a valuable resource to students and scholars of climate change environmental humanities rhetoric environmental communication sociology and science and technology studies **Memory Builders** Frank MD Minirth, 2021-02-02 As we age we may look and feel younger than our parents generation 60 is the new 40 after all but mental decline can begin as early as age 30 and it will impact everyone at some point The good news is just as diet and exercise can keep aging bodies healthier the proper mental regimen can slow even reverse the deterioration of our mental capacity In this practical and hopeful book Dr Frank Minirth gives you trustworthy scientific insights helpful assessments to measure mental sharpness and proven strategies to preserve focus memory and brainpower at any age Each chapter includes brain boosters exercises and challenges as well as engaging personal stories Mission SSC - Tips, Techniques & Strategies to Crack CGL/ CHSL/

The Regulation of Megabanks

Katarzyna Parchimowicz, 2022-11-22 Global systemically important banks G SIBs are the largest most complex and in the event of their potential failure most threatening banking institutions in the world The Global Financial Crisis GFC was a turning point for G SIBs many of which contributed to the outbreak and severity of this downturn The unfolding of the GFC also revealed flaws and omissions in the legal framework applying to financial entities In the context of G SIBs it clearly demonstrated that the legal regimes both in the USA and in the EU grossly ignored the specific character of these institutions and their systemic importance complexity and individualism As a result of this omission these megabanks were long treated like any other smaller banking institutions Since the GFC legal systems have changed a lot on both sides of the Atlantic and global and national lawmakers have adopted new rules applying specifically to G SIBs to reduce their threat to financial stability This book explores whether the G SIB specific regulatory frameworks are adequately tailored to their individualism in order to prevent them from exploiting overly general rules as they did during the GFC Analyzing the specific character and individualism of G SIBs in relation to their history normal functioning as well as their operations during the GFC this book discusses transformation of banking systems and the challenges and opportunities G SIBs face such as Big Tech competitors climate related requirements and the COVID 19 pandemic Taking a multidisciplinary approach which combines financial aspects of operations of G SIBs and legal analysis the book describes G SIB oriented legal frameworks of the EU and the USA and assesses whether G SIB individualism is adequately reflected analyzing trends in supervisory action when it comes to discretion in the G SIB context all in order to contribute to the ongoing discussions about international banking law its problems and potential remedies to such persistent flaws

The Autism of Gxd Ruth M. Dunster,2022-12-02 The Autism of Gxd An Atheological Love Story is truly a love story the story of Ruth Dunster s autistic search for an authentic personal and theological Gxd In this it resembles Augustine s Confessions as a theological autobiography It becomes atheological however as Dunster reckons with what Denys Turner terms The Darkness of God This awareness leads her through the poetry of Medieval mystics to the mythic death of God theology of Thomas J J Altizer The search for faith is nonetheless very real in this strange territory Dunster hears her autistic Gxd speaking in art poetry novels and music and this further leads her into the territory of Literature Theology and the Arts where in Blanchot s words the answer is the poem s absence Indeed Dunster calls the book a strange poem or even a hymn Weaving an autistic mythology out of a rigorous survey of clinical autism this book abounds in challenge and paradox It offers a fascinating view into how an autistic poet becomes a theologian and what more mainstream theologies might learn from this disabled Gxd
