Mathematics 2013 Limpopo Provincial Paper Paper 2

Krishnan, Archana

Mathematics 2013 Limpopo Provincial Paper Paper 2:

Handbook of Research on Social, Cultural, and Educational Considerations of Indigenous Knowledge in Developing Countries Ngulube, Patrick, 2016-09-29 Knowledge systems are an essential aspect to the preservation of a community's culture. In developing countries, this community-based knowledge has significant influence on such things as decision making and problem solving. The Handbook of Research on Social, Cultural, and Educational Considerations of Indigenous Knowledge in Developing Countries is an authoritative reference source for the latest scholarly research on the importance of knowledge and value systems at the community level and ways indigenous people utilize this information. Highlighting impacts on culture and education in developing nations, this book is ideally designed for researchers, academicians, policy makers, students, and professionals interested in contemporary debates on indigenous knowledge systems. *Indigenous Studies: Breakthroughs in Research and Practice* Management Association, Information Resources, 2019-10-11 Global interest in indigenous studies has been rapidly growing as researchers realize the importance of understanding the impact indigenous communities can have on the economy, development, education, and more. As the use, acceptance, and popularity of indigenous knowledge increases, it is crucial to explore how this community-based knowledge provides deeper insights, understanding, and influence on such things as decision making and problem solving. *Indigenous Studies: Breakthroughs in Research and Practice* examines the politics, culture, language, history, socio-economic development, methodologies, and contemporary experiences of indigenous peoples from around the world, as well as how contemporary issues impact these indigenous communities on a local, national, and global scale. Highlighting a range of topics such as local narratives, intergenerational cultural transfer, and ethnicity and identity, this publication is an ideal reference source for sociologists, policymakers, anthropologists, instructors, researchers, academicians, and graduate-level students in a variety of fields. *Autism* Mary Clasquin-Johnson, Dikeledi Mahlo, Michel Clasquin-Johnson, 2023-02-10 This book is written at a time of a paradigm shift in the African continent where dependence on western epistemologies and ontologies are giving way to African indigenous knowledge systems. Africa has been an importer of knowledge from the west since time immemorial, and this book contributes to the body of knowledge on autism spectrum disorder (ASD) from the African perspective. As a result, decoloniality and Inclusive Education have gained traction within the academic discourse with the University of South Africa (UNISA) hosting decoloniality annual conference and a summer school to stimulate academic discussions and debates with a focus on African indigenous knowledge systems and theoretical lenses as opposed to the western epistemologies. The book also demystifies some of the misconceptions that children with ASD are a curse and punishment from God or gods. Among others, Ubuntu seems to be the dominant theoretical framework underpinning some of the research studies reported in this book. **Handbook of Research on Solutions for Equity and Social Justice in Education** Etim, James, Etim, Alice, 2023-03-02 Education's role should further social justice, prepare students to compete for higher social positions, train

workers and engage students so that they become active participants in a democratic society However as with many global systems education has long ago fallen victim to the institutional ailments of systematic oppression and discrimination In order to promote equity and social justice in education it is paramount that educators and administrators acknowledge systematic challenges in education and the solutions The Handbook of Research on Solutions for Equity and Social Justice in Education discusses how teachers and school administrators practice equity and inclusion in their schools It provides examples of social justice and how it affects society as well as specific case studies that aim at engendering equity and inclusion for minorities It further discusses these issues in a global context Covering topics such as agentic empowerment social justice in dialogue and teacher social justice advocacy this major reference work is a critical resource for faculty and administrators of both K 12 and higher education preservice teachers teacher educators school social workers and counselors librarians government officials researchers and academicians

Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society Masenya, Thlou Maggie, Bhuda, Monicca

Thulisile, 2025-05-08 Indigenous knowledge is the comprehensive body of knowledge that locals accumulate from life experience unofficial research and close observation of their surroundings within a particular culture It connects the entirety of nature and the components that sustain life to the survival of every human being Additionally it gives specific community conditions in respect to the environment and offers workable answers to people's problems As a result by preserving indigenous knowledge systems indigenous knowledge may provide value to the community by offering innovative solutions to social environmental and economic issues Resurgence and Revalorization of Indigenous Knowledge Systems in the Contemporary Society explores the role of indigenous knowledge in the contemporary society Furthermore it discusses the importance of preserving and sharing indigenous knowledge for community development Covering topics such as epistemic diversity traditional load and indigenous curricula this book is an excellent resource for sociologists policymakers government officials environmentalists educators records managers professionals researchers scholars academicians and more

Cross-Disciplinary Approaches to Action Research and Action Learning Mapotse, Tome Awshar, 2017-07-31

The complexity of 21st century lifestyle makes collaborative research and learning essential for all of the population both in well resourced and socio economically challenged regions Cross Disciplinary Approaches to Action Research and Action Learning is an advanced reference source including the latest scholarly research on the examination of the development of a community practice of research in order to improve problem solving in various fields Featuring extensive coverage on a broad range of topics such as social justice organizational development and global economy this publication is ideally designed for academics researchers scholars and managers seeking current research on the promotion of collaborative research and learning

Cases on Quality Initiatives for Organizational Longevity Krishnan, Archana, 2018-06-20 Over the past decade increasing competition has created immense opportunities for businesses globally As such it is important to

research new methods and systems for creating optimal business cultures Cases on Quality Initiatives for Organizational Longevity is a scholarly publication that examines cases on practices in organizations and how they have facilitated transformation over the years Featuring coverage on a broad range of topics such as customer loyalty benchmarking and employee training this book is geared toward business owners managers entrepreneurs professionals researchers and students seeking current and relevant research on contemporary cases in the field of business quality management

Mathematics 2 FP Exam Paper ,2003
