Maths Papergrade November 2013 Eastern Cape:

Promoting effective enforcement of the prohibition against corporal punishment in South African schools

Faranaaz Veriava, 2014-06-13 The prohibition against corporal punishment is an integral part of the broader transformation of South African education. The prohibition seeks to replace South Africa's violent and authoritarian past with an ethos respectful of human dignity and bodily integrity.

Language in Epistemic Access Caroline Kerfoot, Anne-Marie

Simon-Vandenberg, 2018-07-26 This book focuses on how to address persistent linguistically structured inequalities in education primarily in relation to South African schools but also in conversation with Australian work and with resonances for other multilingual contexts around the world. The book as a whole lays bare the tension between the commitment to multilingualism enshrined in the South African Constitution and language in education policy and the realities of the dominance of English and the virtual absence of indigenous African languages in current educational practices. It suggests that dynamic plurilingual pedagogies can be allied with the explicit scaffolding of genre-based pedagogies to help redress asymmetries in epistemic access and to re-imagine policies, pedagogies and practices more in tune with the realities of multilingual classrooms. The contributions to this book offer complementary insights on routes to improving access to school knowledge especially for learners whose home language or language variety is different to that of teaching and learning at school. All subscribe to similar ideologies which include the view that multilingualism should be seen as a resource rather than a problem in education. Commentaries on these chapters highlight evidence-based high impact educational responses and suggest that translanguaging and genre may well offer opportunities for students to expand their linguistic repertoires and to bridge epistemological differences between community and school. This book was originally published as a special issue of *Language and Education*.

Language Contact. Volume 2 Jeroen Darquennes, Joseph C. Salmons, Wim

Vandenbussche, 2025-04-21 Targeting a full range of students and scholars, this volume provides a total of 50 chapters illustrating the linguistic dynamics and the dynamics of inter-individual and societal language contact as well as the dynamics of multidisciplinary language contact studies. Fueled by a wealth of data from a rich variety of contact situations, its geographically balanced case studies are governed by the triangulation between a focus on language structure and change, a sincere drive of sociopolitical and academic agency, and the confrontation with an everyday reality that can be unkind to and ignorant of those two factors. The volume clearly demonstrates the social relevance of our trade in a time burdened with ecolinguistic challenges.

discourse of Educational Governance and its political economic academic and pedagogic objectives How can we make these rationales visible and which theories and analytic tools can help us to decipher the meanings attached to them Are there different local and national trajectories in education discourse and practice with regard to Educational Governance and which role do international organizations and transnational transfer play This edited volume displays these discussions and aims at initiating a broader communication about Educational Governance between previously separated spaces **The Transformative Power of Language** Russell H.
