Kamarulzaman Ab. Aziz, 2017 Proceedings of the 5th International Conference on Innovation and Entrepreneurship held in Cyberjaya Malaysia on 26th-27th April 2017 **Joint Public Procurement and Innovation** Gabriella Margherita

Racca, Christopher Yukins, 2020-02-12 Innovation in public procurement is essential for sustainable and inclusive growth in an increasingly globalized economy To achieve that potential both the promises and the perils of innovation must be investigated including the risks and opportunities of joint procurement across borders in the European Union and the United States This in depth research investigates innovation in public procurement from three different perspectives First leading academics and practitioners assess the purchase of innovation with a particular focus on urban public contracting in smart cities involving meta infrastructures public private partnership arrangements and smart contracts A second line of inquiry looks for ways to encourage innovative suppliers Here the collected authors draw on emerging lessons from the US and Europe to explore both the costs and the benefits of spurring innovation through procurement A third perspective looks to various innovations in the procurement process itself with a focus on the effects of joint and cross border procurement in the EU and US landscapes The chapters review new technologies and platforms the increasingly automated means of selecting suppliers and the related efficiencies that big data can bring to public procurement Expanding on research in the editors prior volume Integrity and Efficiency in Sustainable Public Contracts Balancing Corruption Concerns in Public Procurement Internationally Bruylant 2014 this volume builds on a series of academic conferences and exchanges to address these issues from sophisticated academic institutional and practical perspectives and to point the way to future research on the contractual models that are emerging from new procurement technologies
