Riad Shams, Demetris Vrontis, Yaakov Weber, Evangelos Tsoukatos, Lea Iaia,2023-06-30 Triple bottom line TBL or 3BL was coined as a wide and inspiring approach for businesses aimed at understanding how to create track and manage economic social and environmental values added The sustainability sector is strongly increasing its relevance among academics and practitioners and the market opportunities associated with the sustainable development goals SDGs are estimated at over 12 trillion per year by 2030 Although this is a promising context a recent article suggested a rethinking of the TBL arguing that sustainability goals value should not be assessed in terms of profit and loss but of people well being and planet health looking for a societal profit Technology plays a crucial role in our society Respectively the Agenda 21 and the Paris Agreement consider technology to be essential in the pursuit of sustainable development and the achievement of the SDGs Adding to this the Covid 19 pandemic has accelerated the adoption of digital solutions in several fields from the way of working to the way of buying and consuming Companies are becoming more aware of the responsibility they have within environmental and human contexts and people are looking for work reflecting their values and purposes to motivate them This book aims to contribute to the understanding of the role of technology and its emerging and innovative solutions in the achievement of sustainable development while making a profit It will be of value to researchers academics practitioners and students in the fields of strategic management entrepreneurship management of technology and innovation and sustainable development **Automotive News** ,2007 **Multinationals as Flagship Firms** Alan Rugman, Joseph R. D'Cruz,2003-03-06 The international dimension of business networks has remained relatively unexplored mainly because international business writers focus upon multinational enterprises and network writers ignore international issues In this book Professors Alan Rugman and Joseph D Cruz bridge the literature on networks and multinationals by introducing the new concept of the flagship firm In each business network strategic leadership is provided by the flagship firm which is defined as a

multinational enterprise It has other partners key suppliers key customers key competitors and key partners in the non business infrastructure These business networks are usually located in the triad regions of the European Union North America and Japan There are strong cross border network linkages within these regions but less globalization than regional economic integration The theory of the flagship firm five partners model is applied to the telecommunications chemicals automotive and electronics sectors amongst others and the book reports on both empirical studies and field research of the international competitiveness of these sectors The book will be of interest to academics students and professionals in the areas of international business strategic management political science law and sociology **Federal Register** ,1999
