Le Dernier Voyage:

Les derniers voyages des Néerlandais à la Nouvelle-Guinée prince Roland Bonaparte, 1885 **Virtual Voyages** Paul Longley Arthur, 2011 Virtual Voyages is a fascinating account of the European discovery of the elusive great south land told through the literature of imaginary voyages Written at the height of the era of European maritime exploration these bizarre and captivating tales with their wildly imaginative visions of antipodean inversion and strangeness reveal a hidden history of attitudes to colonization By exposing the relationship between myth and reality in the antipodes this book casts new light on the power of fiction to influence history , Reports of the Supreme Court of Canada Canada. Supreme Court, 1908
Canada Law Reports Canada. Exchequer Court, 1912 Eastern Law Reporter, Canada , 1908 Contains judgments of the courts of Nova Scotia New Brunswick and Prince Edward Island together with a selection of cases decided by the Judicial Committee of the Privy Council Supreme and Exchequer Courts of Canada in cases arising in such provinces Publications International Institute of Agriculture. Bureau of Statistics, 1914 Dignified Retreat Robert A. Schneider, 2019-10-31
Dignified Retreat is a panoramic study of the vibrant literary and intellectual culture that emerged in early seventeenth century France following the devastating Wars of Religion This was a period that not only witnessed the recovery of the country following these wars and the emergence of a strong absolutist monarchy under the Bourbons but also the rise and refinement of the French language and the development of a literary culture that would soon be known as French classicism Casting his net over a wide range of writers and intellectuals Robert A Schneider has assembled a roster of more than 100 men and women of letters those constituting what he calls the generation of 1630 While diverse and indeed divided between those who hewed to traditional humanism and others more attuned to modern linguistic and literary developments this cohort largely shared a commitment to a cultural renewal of France its rise to prominence in the geopolitical arena of Europe and the emergence of a strong centralized monarchy They depended on both the traditional aristocracy and the king s powerful minister Cardinal Richelieu But despite this dependency these writers and intellectuals maintained a degree of independence and more significantly were the prime movers in crucial cultural developments that are too often identified with royal initiatives For example the author demonstrates that the Acad mie fran aise founded in 1635 by Richelieu often considered formative in French cultural history was actually more the result of the creative initiatives of these men of letters which the savvy Cardinal only managed to co opt and turn to the purposes of the crown Reports of the Exchequer Court of Canada Canada.
