Legal Aspects of Crowdfunding Caroline Kleiner, 2021-11-05 This book offers a comparative perspective on 18 countries legal regulation of crowdfunding In the wake of the financial crises of 2008 use of this alternative financing method has increased substantially in various forms Whereas some states have adopted tailor made regimes in order to regulate but also encourage this way of financing projects allowing loans to be made by non banking institutions others still haven't specifically addressed the subject An analysis of these diverse legislative stances offers readers a range of legal solutions for managing crowdfunding activities with regard to e.g. protecting investors imposing limits on project owners and finally the role and duties of intermediaries i.e. companies operating crowdfunding platforms In addition the content presented here provides a legal basis for states and supranational organizations interested in regulating this phenomenon to achieve more legal certainty TRAITE ELEMENTAIRE DE LEGISLATION INDUSTRIELLE PAUL JULES VICTOR PIC, 1922 **Genie**

**Civil**, 1929 Unveiling the Nation Emily Laxer, 2019-05-09 Over the last few decades politicians in Europe and North America have fiercely debated the effects of a growing Muslim minority on their respective national identities Some of these countries have prohibited Islamic religious coverings in public spaces and institutions while in others legal restriction remains subject to intense political conflict Seeking to understand these different outcomes social scientists have focused on the role of countries historically rooted models of nationhood and their attendant discourses of secularism Emily Laxer's Unveiling the Nation problematizes this approach Using France and Quebec as illustrative cases she traces how the struggle of political parties for power and legitimacy shapes states responses to Islamic signs Drawing on historical evidence and behind the scenes interviews with politicians and activists Laxer uncovers unseen links between structures of partisan conflict and the strategies that political actors employ when articulating the secular boundaries of the nation In France's historically class based political system she demonstrates parties on the left and the right have converged around a restrictive secular agenda in order to limit the siphoning of votes by the ultra right In Quebec by contrast the longstanding electoral salience of the national question has encouraged political actors to project highly conflicting images of the province's secular past present and future At a moment of heightened debate in the global politics of religious diversity Laxer's Unveiling the Nation sheds critical light on the way party politics and its related instabilities shape the secular boundaries of nationhood in diverse societies An Outline of French Law as Affecting British Subjects John Thomas Beadsworth Sewell, 1897 *The Canada Gazette* Canada, 1911 *Canada Gazette* Canada, 1911 **Thèmes à discuter**, 1912
