

## CHA16 SERIES

CHA16 series units are packaged commercial air conditioners. All units provide two-stage dx cooling. 15 ton units are equipped with three compressors. All other units are equipped with two compressors. Optional electric heat sections install inside the cabinet and are available in 10kW through 90kW input sizes. Electric heat operates in single or multiple stages depending on kW input size. Units are designed for rooftop or side of building installation with either bottom or horizontal discharge and return air.

For commercial applications, the CHA16 is designed to accept any of several different thermostat control systems with minimum field wiring. Control options such as economizer, warm up kit, Honeywell W973 control, Honeywell W7400 control or other field specified controls connected to the unit with jack-plugs. When "plugged in" the controls become an integral part of the unit wiring. Units are also equipped with a low voltage terminal strip to facilitate thermostat field wiring.

All specifications in this manual are subject to change.
