## **Lucy Calkins Fairy Tales Writing:**

**Nonfiction Craft Lessons** JoAnn Portalupi, Ralph J. Fletcher, 2001 Writing nonfiction represents a big step for most students. Most young writers are not intimidated by personal narrative fiction or even poetry but when they try to put together a teaching book report or persuasive essay they often feel anxious and frustrated. JoAnn Portalupi and Ralph Fletcher believe that young nonfiction writers supply plenty of passion, keen interest, and wonder. Teachers can provide concrete strategies to help students scaffold their ideas as they write in this challenging genre. Like the authors' best-selling *Craft Lessons Teaching Writing K-8*, this book is divided into sections for K-2, 3-4, and middle school grades 5-8 students. These divisions reflect various differences between emerging, competent, and fluent writers. In each section, you'll find a generous collection of craft lessons directed at the genre that's most appropriate for that particular age. In the K-2 section, for example, a number of craft lessons focus on the all-about or concept book. In the 3-4 section, there are several lessons on biography. In the 5-8 section, a series of lessons addresses expository writing. Throughout the book, each of the 80 lessons is presented on a single page in an easy-to-read format. Every lesson features three teaching guidelines: Discussion (A brief look at the reasons for teaching the particular element of craft specifically in a nonfiction context), How to Teach It (Concrete language showing exactly how a teacher might bring this craft element to students in writing conferences or a small group setting), and Resource Material (Specific book or text referred to in the craft lesson, including trade books or a piece of student writing in the Appendixes). This book will help students breathe voice into lifeless dump-truck writing and improve their nonfiction writing by making it clearer, more authoritative, and more organized. *Nonfiction Craft Lessons* gives teachers a wealth of practical strategies to help students grow into strong writers as they explore and explain the world around them. Be sure to look at the *When Students Write* videotapes too.

**Humanizing Distance Learning** Paul Emerich France, 2020-11-06 In some ways, shouldn't we always be teaching from a distance? Paul France asks this not as pitch for distance learning. But because part of the reason distance learning has been so challenging, Paul asserts, is that we're replicating long-standing practices that promote dependent learning in our students. Why not use this unique moment of time to reconnect with the true purpose of teaching to help our students become liberated learners and free thinkers? The next logical step in teachers' months-long distance learning journey, *Humanizing Distance Learning* describes how to center humanity and equity in our process of reimagining learning. Even while teaching and learning miles apart through screens, you'll discover how to build independence within your students so they're better equipped to tackle challenges with persistence and learn how to learn. Make collaboration and human connection essential components of your pedagogy, offering students the chance to socialize and learn from one another. Center and unpack students' identities, helping them develop a conscious knowledge of themselves all the while using their self-identified strengths to overcome any obstacles. Plan, prepare, and implement humanized instruction while teaching for student liberation, both digitally and in person. Investigate technology integration.

including the Digital Divide as well as ways to minimize EdTech integration so that our collective sense of humanity can continue to be front and center The future Paul writes may be unclear the road may be rocky and the story may continue to be long and winding as we push forward through this global crisis But the answer will always be simple We must teach and learn in pursuit of a deeper sense of collective humanity and for no other reason This book is equal parts visionary and practical courageous and invitational It addresses foundational needs and wrenching challenges teachers faced during the recent time when U S teachers abruptly found themselves teaching remotely It is a deeply humanizing book Carol Ann Tomlinson William Clay Parrish Jr Professor Emeritus University of Virginia Humanizing Distance Learning is a book for our times not only because it addresses how to build a culture of thinking and teach for understanding at a distance but also because it challenges the status quo of education by offering a more liberated and humane vision Ron Ritchhart Senior Research Associate Harvard Graduate School of Education Paul France has produced a timely and necessary book that will help educators humanize distance learning Recognizing incredible dimensions of complexity this book will surely help educators traverse times of uncertainty in distance learning H Richard Milner IV Cornelius Vanderbilt Chair of Education Vanderbilt University
