**The Extraterrestrials! in an Adventure with the American Army** Ken Patterson, 2017-04-06 Bored with the usual cattle mutilations and earthling abductions The Alien Captain and his daring gray explorers head to Kansas to participate in a crop circle contest Unfortunately due in part to a gray navigators poor self esteem and hereditary earwax problems another crewmates random Tourettes driven outbursts and The Alien Captains obsession with meeting William Shatner at an upcoming Star Trek convention the grays unintentionally pilot their flying saucer into The Shite Black Hole Transported back in time the hapless travelers crash in a remote spot in Americas southwest Having no other options the grays accept an offer from the Roswell Airfield intelligence officer Major Marcel to stay in the bases plush underground quarters It soon becomes apparent however that Marcells seemingly generous offer comes with a condition the U S Army wants the grays to build a working flying saucer Initially they accept this offer but soon find they are not up to the task of constructing an interstellar spacecraft The grays also quickly discover they are not actually guests but prisoners Their hosts promise of free room and board and all the bowling they can handle is not everything it is cracked up to be Wanting to return to their home planet of Gliese 581 c the grays feign the need for a break from spaceship building They convince Major Marcel to take them on a day trip to Carlsbad Caverns where they commandeer an army air corps bus and escape to Santa Fe in hope of contacting Gliesean kinfolk manning The Emergency Earth Operations Center for Stranded Graynauts This is a story of what happens when a happy go lucky space trip turns into a not so happy go lucky road trip It is the story of barbecuing under a million stars with a ray gun It is the story of visiting a roadside museum in the desert where sometimes visitors are put on display It is the story of what it is like to make a mailbox that looks like a UFO In short it is the story of what it is like to be an alien in an alien world But most of all it is the story of what really happened at Roswell New Mexico in 1947

**Telling Our Way to the Sea** Aaron Hirsh, 2013-08-06 A luminous and revelatory journey into the science of life and the depths of the human experience By turns epic and intimate Telling Our Way to the Sea is both a staggering revelation of unraveling ecosystems and a profound meditation on our changing relationships with nature and with one another When the biologists Aaron Hirsh and Veronica Volny along with their friend Graham Burnett a historian of science lead twelve college students to a remote fishing village on the Sea of Cortez they come upon a bay of dazzling beauty and richness But as the group pursues various

threads of investigation ecological and evolutionary studies of the sea the desert and their various species of animals and plants the stories of local villagers the journals of conquistadors and explorers they recognize that the bay spectacular and pristine though it seems is but a ghost of what it once was Life in the Sea of Cortez they realize has been reshaped by complex human ideas and decisions the laws and economics of fishing property and water the dreams of developers and the fantasies of tourists seeking the wild even efforts to retrieve species from the brink of extinction all of which have caused dramatic upheavals in the ecosystem It is a painful realization but the students discover a way forward After weathering a hurricane and encountering a rare whale in its wake they come to see that the bay's best chance of recovery may in fact reside in our own human stories which can weave a compelling memory of the place Glimpsing the intricate and ever shifting web of human connections with the Sea of Cortez the students comprehend anew their own place in the natural world suspended between past and future teetering between abundance and loss The redemption in their difficult realization is that as they find their places in a profoundly altered environment they also recognize their roles in the path ahead and ultimately come to see one another and themselves in a new light In *Telling Our Way to the Sea* Hirsh's voice resounds with compassionate humanity capturing the complex beauty of both the marine world he explores and the people he explores it with Vibrantly alive with sensitivity and nuance *Telling Our Way to the Sea* transcends its genre to become literature
