Panda, David A. Tizzard, 2021-07-28 This book considers both Koreas North Korea and South Korea to examine possible pathways for the years leading up to 2032 and beyond thus offering a composite picture of Korea and its strategic relevance in Asia and the world at large Through a combined South North Olympic team and an effort of jointly hosting the Games Republic of Korea president Moon Jae in has marked the year 2032 as special in the future of the Korean Peninsula Although the International Olympic Committee IOC has expressed scepticism about a combined hosting of the Games the expectation in Korea is that this event will underline the shared destiny of the people inhabiting the peninsula and realign two states still caught in an ideologically fraught civil conflict that is one of the last vestiges of the Cold War Chapters begin with a brief historical review and analysis of the present before moving to consider how these will shape the next decade drawing comparative and complementary analyses No matter how contrasting the contemporary trajectories of both North and South Korea might appear Korea as a singular entity is an old concept still containing great possibilities As the ongoing inter Korean reconciliation process underscores the futures of North and South

Korea can be found in a complementary singular Korea which would again represent an important political strategic cultural and social space in Asia An evaluation of the future trajectory social awareness and perception of the Koreas this book offers a valuable contribution to the study of North and South Korea and Asian Politics **International Journal of Korean**
