**Guide to U.S. Health and Health Care Policy** Thomas R. Oliver, 2014-09-03 Guide to U S Health and Health Care

Policy provides the analytical connections showing students how issues and actions are translated into public policies and institutions for resolving or managing health care issues and crises such as the recent attempt to reform the national health care system. The Guide highlights the decision making cycle that requires the cooperation of government business and an informed citizenry in order to achieve a comprehensive approach to advancing the nation's health care policies. Through 30 topical operational and relational essays the book addresses the development of the U.S. health care system and policies, the federal agencies and public and private organizations that frame and administer those policies and the challenges of balancing the nation's health care needs with the rising costs of medical research, cost effective treatment and adequate health insurance.

**Key Features:** The 30 topical essays investigate the fundamental political, social, economic and procedural initiatives that drive health and health care policy decisions affecting Americans at the local, regional and national levels. Essential themes traced throughout the chapters include providing access to health care, national and international intervention, nutrition and health, human and financial resource allocation, freedom of religion versus public policy, discrimination and health care policy, universal health care coverage, private health care versus publicly funded health care and the immediate and long term costs associated with disease prevention, treatment and health maintenance. A Glossary of Key Health Care Policy Terms and Events, a selected Master Bibliography and a thorough Index are included. This must have reference for political science and public policy students who seek to understand the issues affecting health care policy in the U.S. is suitable for academic, public, high school, government and professional libraries. *Federal Register*, 2012-11
