A grade 8 student

We are all went in grade 8 and we are all had a good and bad memories, you make a lot o friends. But for me when i was in 8th grade a have a good and bad experience. At first i was shy to my classmate because im a newbie in their section there are some that i am close with but many of them are so stranger to me. Until one there is someone who approach me. She is jolly and shes always smile, we become closer and closer then later on not anyone can separate us. I learned to lie to my parents that i would go to school but the truth is i will just wander around with her. I also i lost interest in my studies because shes always asking me to go out even we have a classes. I was removed from top10 and for me that time it was big deal but I didn't have any idea how my grades fell down because i am enjoying her company and she's always telling me that it's okay I'll just take it back next quarter. Until one day i found out that she's back stubbing me. I heard her. Then we talked about it and after that we didn't talk anymore. I don't need someone who is so kind in front of me and then when you turn your back to you what you are saying about me. After that i joined another set of friends and they become a good influence to me. They help me to back my top in classroom and up until now we are helping each other to become a good student. The lesson i learned that time is don't let people become a bad influence, dont be influence by them and get to know them well first before you gave them your trust.
