The World Cookbook Jeanne Jacob, Michael Ashkenazi, 2014-01-15. This is the only world cookbook in print that explores the foods of every nation state across the globe, providing information on special ingredients, cooking methods, and commonalities that link certain dishes across different geographical areas. Increasing globalization, modern communication, and economic development have impacted every aspect of daily life, including the manner by which food is produced and distributed. While these trends have increased the likelihood and expansion of food influences, variations of the same popular dishes have been found in regions all over the world long before now. This book is an ecological, historical, and cultural examination of why certain foods are eaten and how these foods are prepared by different social groups within the same and different geographical regions. The authors cover more than 200 countries and cultural groups, featuring each nation's food culture and traditions and providing overviews on foodstuffs, typical dishes, and styles of eating. This revised edition features in excess of 400 new recipes, several new countries, and additional sidebars with fun facts explaining unique foods and unfamiliar ingredients. More than 1,600 recipes for popular appetizers, main courses, desserts, snack foods, and celebration dishes are provided, allowing readers to construct full menus from every country of the world.

Gastronomy is a fundamental aspect of culture, and the food and cuisine of any region can provide rich insights into the local lifestyle and traditions. Gastronomic tourism therefore involves visiting food producers, restaurants, food festivals, or other establishments where visitors can dine and experience the typical products of a region. It is an enjoyable way for tourists to discover the cultural heritage of the places they visit, and culinary pleasure is becoming an increasingly decisive factor when choosing a travel destination. In certain regions, gastronomy has been recognised as an Intangible Cultural Heritage by UNESCO, and the promotion of local traditional cuisine can be a way to rediscover and preserve local or regional values through culinary riches.
