- A. This document is always honored, regardless of circumstances.
- B. This document specifies the client's wishes before hospitalization.
- C. This document is binding for the duration of the client's stay.
- D. This document has been drawn up by the client's family.

ANS: B

Rationale: A living will is one type of advance directive. Its use is limited to situations in which the client's medical condition is terminal. The other answers are incorrect because living wills are honored in every circumstance, they are not binding for the duration of the client's stay, and they are not drawn up by the client's family.
