## **Medicinal Plants And Traditional Medicine In Sierra Leone Cyrus Macfoy:**

**Medicinal Plants and Traditional Medicine in Sierra Leone** Cyrus Macfoy, 2013-12-05 Medicinal plants and traditional medical practices from Sierra Leone in West Africa have much to offer the rest of the world Dr Cyrus MacFoy an experienced researcher and scientific consultant highlights more than two hundred plants used to cure more than one hundred diseases and illnesses in this informational guide He provides the plant location their botanical and local names English common names and the ways they are used to treat and cure ailments and diseases He also includes findings regarding the conservation sustainable use and development of new drugs ways to incorporate different techniques into the health care delivery system and chemical analyses and biological activity testing of plant species Discover how Africas traditional healers play a critical role in treating diseases such as HIV and AIDS In developing countries with poor infrastructure these healers are located in nearly every rural village setting as well as in the busy urban areas While underappreciated they may play a key role in solving the continents diverse health problems

**Historical Dictionary of Sierra Leone** LaRay Denzer, David E. Skinner, 2025-10-02 Sierra Leone was founded as a refuge for emancipated slaves in the late 18th century and is an important case study for contemporary global issues The region in which the country is located was important for the early migration and settlement of diverse cultures throughout western Africa The dictionary offers information and analysis about the territory s ethnographic economic social and political characteristics from early times to the present Historical Dictionary of Sierra Leone Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 400 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Sierra Leone

*Medicinal Plants of Sierra Leone* Cyrus A. Macfoy, 1983

**The Ebola Pandemic in Sierra Leone** John Idriss Lahai, 2017-02-27 This book provides a timely examination of the Ebola pandemic in Sierra Leone from four different standpoints 1 a social standpoint that focuses on the way in which the vulnerable Sierra Leonian population viewed the pandemic in light of their cultural beliefs memories of past wars and narratives and actions of the government 2 a good governance standpoint that exposes lapses in health governance and the general unpreparedness of the government and international community to deal with the outbreak 3 a scientific research standpoint that looks at the role played by the Sierra Leone s Lassa Fever Research Laboratories as a main hub for the investigation monitoring and evaluation of communicable diseases in the Mano River Union countries and 4 an international politics standpoint that examines the development of a new bio security international apparatus involving a wide range of international actors and institutions

from Booklist It served as a general non technical resource focusing on cancer from the perspective of the social and behavioral sciences exploring social and economic impacts the business of cancer advertising of drugs and treatment centers how behavior change could offer great potential for cancer prevention environmental risks food additives and regulation the relation between race and ethnicity and cancer risk socioeconomic status controversies both scientific and political in cancer treatment and research country by country entries on cancer around the world and more Given various developments in the field including new drug treatments political controversies over use of the vaccines Gardasil and Cervarix with young girls to prevent cervical cancer and unexpected upticks in the prevalence of adult smoking within the U S following decades of decline the SAGE Encyclopedia of Cancer and Society Second Edition serves as an updated and more current encyclopedia that addresses concerns pertaining to this topic Key Features Approximately half of the 700 first edition articles revised and updated 30 new entries covering new developments since 2006 Signed entries with cross references Further Readings accompanied by pedagogical elements New Reader s Guide Updated Chronology Resource Guide Glossary and through new Index The SAGE Encyclopedia of Cancer and Society Second Edition serves as a reliable and precise source for students and researchers with an interest in social and behavioral sciences and seeks to better understand the continuously evolving subject matter of cancer and society [National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.),

[Medicinal Plants of Sierra Leone](#) Cyrus A. Macfoy,1983 *Medicinal Plants and Traditional Medicine in Africa* Abayomi Sofowora,2000-01-01 **Medicinal Plants of Sierra Leone** Babara Morie S. Turay,University of Alberta. Centre for the Cross-Cultural Study of Health and Healing,1997 **Medicinal Plants of West Africa** Edward S. Ayensu,1978

*Medicinal Plants of East Africa* J. O. Kokwaro,2009 Medicinal Plants of East Africa is a revised edition of the book first published in 1976 on herbal remedies and the traditional medical practice of East Africa The book covers the rich diversity of plants found in Kenya Tanzania and Uganda from sea to alpine plants East Africa also has a rich ethnic diversity and a large number of herbalists whose traditional knowledge and practices are also covered in the book Over 1500 species are described and for the first time over 200 of these herbs have been illustrated Also included are maps detailing where the herbs were collected and an ethnographic map detailing the tribes of each herbalist whose knowledge is contained in the book John Kokwaro is an Eminent Professor of Botany and a research specialist on herbal remedies at the University of Nairobi *Handbook of African Medicinal Plants, Second Edition* Maurice M. Iwu,1993-02-18 Handbook of African Medicinal Plants provides a comprehensive review of over 1 000 species of plants employed in indigenous African medicine It gives a concise description of the materia medica of an enormous and extensively varied continent with well over 2 000 distinct tribes and several distinct floras A detailed pharmacognostical profile of the major herbs is presented including the common name synonyms African names habitat and distribution medicinal uses chemical constituents and published pharmacologic activity This extensive catalog of plants is presented both in alphabetic order and according to family

References are cited from over 600 publications and photographs and sketches illustrate many of the plants. The book also provides an introduction to African cosmology and beliefs as they relate to healing and the use of herbs. *Handbook of African Medicinal Plants* is an invaluable practical desk reference that should be on the bookshelf of every pharmacognosist, ethnobiologist, botanist, ecologist, phytochemist, pharmacologist, and scientist interested in tropical plant utilization as a tool for the conservation of biodiversity and as a source of new drug leads. *Some Medicinal Plant Recipes of the Mende, Sierra Leone* Guy Barnish, 1992. **African Medicinal Plants and Traditional Medicine** Andrew L. McNaughton, Dorothy H. Bray, Commonwealth Institute (Great Britain). Today Gallery, 1987. **Handbook of African Medicinal Plants, Second Edition** Maurice M. Iwu, 2014-02-04. With over 50 000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the *Handbook of African Medicinal Plants* provides a comprehensive review of more than 2 000 species of plants employed in indigenous African medicine, with full color photographs and references from over 1 100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits, and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants. **Healing Plants of Nigeria** Anselm Adodo, Maurice M. Iwu, 2020-03-17. *Healing Plants of Nigeria: Ethnomedicine and Therapeutic Applications* offers comprehensive information on the use of herbal medicines in West Africa. Combining an evidence-based ethnobotanical perspective with a pharmacological and pharmaceutical approach to phytomedicine, the book bridges the gap between the study of herbal plants, pharmacological properties, and active compounds for the development of clinical drugs and community-oriented approaches emphasizing local use. It demonstrates how the framework of African traditional medicine can be preserved in a contemporary clinical context. The book outlines the history and beliefs surrounding the traditional use of herbs by the local population, alongside their application in contemporary phytotherapy in Nigeria and West Africa. It features a critical assessment of the scientific rationale behind the use of these plants in ethnomedicine and offers a composite catalogue of phytotherapeutic and wellness agents, detailing the safety profile, efficacy, and scientific integrity of plants used to treat diseases and optimise health.

Features An ethnobotanical survey containing over 200 full colour photographs of Nigerian and West African plants A unique combination of ethnobotany and pharmacognosy bridging the divide between pharmaceutical and community oriented approaches to herbal medicine research Contextual discussion of the therapeutic potential of Nigerian herbal medicine Offers a template which can be used to separate the superstitious aspects of ethnomedicine from culturally inherited deposits of knowledge A handbook for herbal and natural medicine practitioners the book is aimed at African thinkers scientists healthcare providers and students of pharmacology and ethnomedicine *A guide to medicinal plants in North Africa* ,2005

**Medicinal Plant Research in Africa** Victor Kuete,2013-06-19 The pharmacopoeias of most African countries are available and contain an impressive number of medicinal plants used for various therapeutic purposes Many African scholars have distinguished themselves in the fields of organic chemistry pharmacology and pharmacognosy and other areas related to the study of plant medicinal plants However until now there is no global standard book on the nature and specificity of chemicals isolated in African medicinal plants as well as a book bringing together and discussing the main bioactive metabolites of these plants This book explores the essence of natural substances from African medicinal plants and their pharmacological potential In light of possible academic use this book also scans the bulk of African medicinal plants extract having promising pharmacological activities The book contains data of biologically active plants of Africa plant occurring compounds and synthesis pathways of secondary metabolites This book explores the essence of natural substances from African medicinal plants and their pharmacological potential The authors are world renowned African Scientists

Medicinal Plants and Malaria Woon-Chien Teng,Ho Han Kiat,Rossarin Suwanarusk,Hwee-Ling Koh,2016-01-06 Malaria is a potentially life threatening disease that affects millions worldwide especially in Sub Saharan Africa The recent emergence and spread of multidrug resistance in parts of Southeast Asia prompts the urgent need for novel and effective therapy against the disease Medicinal Plants and Malaria Applications Trends and Prospects highlig
