Press Summary - Illinois Information Service Illinois Information Service,1995 *Handbook of Child and Adolescent Sexuality* Daniel S. Bromberg,William T. O'Donohue,2013-01-28 Adolescent and child sexuality is studied by developmental psychologists from a research perspective and is of interest to forensic psychologists dealing with abuse and custody issues as well as rape cases In many cases it is of interest whether the child in question was sexually active to understand the extent to which an underage minor might have voluntarily participated in sexual activity as opposed to having been coerced Previously researchers interested in the applications of their research needed to look to separate books and forensic specialists needed to look to development books to find the information they may have needed This handbook provides both audiences with the related information they need Encompasses normative behavior and clinical disorders in one source Applies the information on development and behavior to forensic issues Provides treatment information on sexual disorders in children Provides information on children and adolescents in one volume **Official Manual, State of Missouri** ,2007 [Female Ex-Combatants, Empowerment, and Reintegration](#) Michanne Steenbergen,2022-02-24 Female Ex Combatants Empowerment and Reintegration investigates the role of United Nations led Disarmament Demobilization and Reintegration DDR programs in undermining female ex combatants empowerment The participation of female combatants in conflict has increasingly been recognized in feminist literatures and in policies and programs concerned with reintegrating ex combatants and building peace This has illustrated that female ex combatants often experience empowerment through their role as combatant however this empowerment is often lost upon reintegration UN led DDR plays an important role in the broader peacebuilding process as it is one of the largest interventions and directly aims to reintegrate ex combatants into civilian life This book draws on extensive field research and interviews with female ex combatants and DDR officials in Liberia and Nepal to develop a nuanced and comprehensive picture of female ex combatants empowerment and how this is undermined by DDR Through reconceptualized frameworks of empowerment and an emancipatory peace the book explores the pivotal role that DDR programs play in undermining female ex combatants empowerment The author argues that this is detrimental to peacebuilding because DDR officials and documentation narrate female ex combatants in limited and gendered ways which reproduces gendered inequalities and define how female ex combatants should behave This book will be of great interest to scholars and practitioners working on gender conflict peace security and development [Forensic Psychology](#) David A. Crighton,Graham J. implications for evidence based practice Points to additional online learning resources at the conclusion of each chapter
